PRIVATE letters from Buenos Ayres inform us, that 300 Engliſh or Portugueſe had been ſent up the country, but for what reaſon is not known. Ten or twelve were alſo put on board a frigate of war, in order to their being brought hither.

Berlin, July 9. Proclamation of the marriage of the Prince of Pruſſia with the Princeſs Elizabeth of Brunſwick was made yeſterday in all the churches of this city; and the ceremony is to be performed the 14th inſtant.

July 13. On the 10th inſt. the Court of Brunſwick, together with his Royal Highneſs the Duke of York, arrived at Potzdam, and were moſt graciouſly received by his Pruſſian Majeſty. Laſt night the Duke of York came to Berlin from Potzdam in perfect health and ſpirits, and his Royal Highneſs is highly pleaſed with the kind and moſt diſtinguiſhed reception he has met with from the King of Pruſſia. This morning his Royal Highneſs ſet out in one of his Pruſſian Majeſty's equipages for Charlottenbourg, where that Monarch is arrived with the Court of Brunſwick.

Paris, July 8. They write from Italy, that Mr. Wilkes, who went to Naples to live retired, has met with a freſh Misfortune there. He took with him from Rome a young Parmeſan woman, by way of a houſekeeper, who ingratiated herſelf ſo much into his favour, that he truſted every thing to her care, by which he became a dupe to her; for while he was gone into the country, ſhe found means to march off with every thing that he had of value, and among the reſt his papers, the loſs of which he is moſt chagrined at, and makes him think ſhe has been tampered with by ſome of his enemies.

Corunna, June 19. The Lievre Frigate, of 26 guns, is fitting out at Ferrol, deſtined, as we are aſſured, for Louiſiana, and on board of which will embark an officer whom his Majeſty has nominated governor of that colony, together with a commiſſary of war, who is to act as Intendant, a Vicar-general, and ſome officers of juſtice. A detachment of 100 men, drawn from different regiments of infantry, quartered in this province, will likewiſe embark at the ſame time. Theſe diſpoſitions ſeem to deſtroy the report, lately current, that our Court was treating with that of England, for exchanging Louiſiana for ſome other Colony, whoſe ſituation would be more advantageous to Spain.

Turin, July 20. A moſt melancholy, as well as unexpected accident, has put this Court into the greateſt concern: The Infant Duke of Parma, who had been ill of the ſmall-pox at Alexandria, and appeared to be in a fair way of doing well at the beginning, grew ſuddenly worſe towards the eighth day of his illneſs, and expired on Thurſday morning, the 18th of this month. The King of Sardinia has ſhewn the moſt ſincere affliction for his death.

Nice, July 27. The King, who lately fitted out two frigates, inſtead of his galleys, has made a very conſiderable change in his marines; all the officers are now removed, except the commander in chief, the Chevalier Balbiani; they are incorporated in various regiments of infantry, according to the rank they bore in the navy. They ſay their places will be filled with Engliſh officers, and that a corps of marine guards will ſoon be formed.

BOSTON, September 19.

Meſſieurs DRAPERS,

At a Meeting of the Freeholders, and other Inhabitants of the Town of Boſton, by Adjournment, September 18, 1765, the Committee appointed to draw up Inſtructions for the Repreſentatives of the Town, reported the following Draft, which being read Paragraph by Paragraph, was unanimouſly accepted; and I am to deſire you to publiſh the ſame in your Paper, by Order of the Town, WILLIAM COOPER, Town Clerk.

To the Honourable JAMES OTIS, Eſq; THOMAS CUSHING, Eſq; and Mr. THOMAS GRAY.

GENTLEMEN,

AT a Time when the Britiſh American Subjects are every where loudly complaining of arbitrary and unconſtitutional Innovations, the Town of Boſton cannot any longer remain ſilent without juſt Imputation of inexcuſable Neglect.---We therefore, the Freeholders and other Inhabitants, being legally aſſembled in Faneuil-Hall, to conſider what Steps are neceſſary for us to take at this alarming Criſis, think it proper to communicate to you our united Sentiments, and to give you our Inſtructions thereupon.

It fills us with great Concern to find, that Meaſures have been adopted by the Britiſh Miniſtry, and Acts of Parliament made, which preſs hard upon our invaluable Rights and Liberties; and tend greatly to diſtreſs the Trade of the Province, by which we have heretofore been able to contribute ſo large a Share towards the enriching of the Mother Country.

But we are more particularly alarmed and aſtoniſhed at the Act called the STAMP-ACT, by which a very grievous, and we apprehend unconſtitutional Tax is to be laid upon the Colonies.

By the Royal Charter granted to our Anceſtors, the Power of making Laws for our internal Government, and of levying Taxes, is veſted in the General Aſſembly: And by the ſame Charter the Inhabitants of this Province are entitled to all the Rights and Privileges of natural free born Subjects of GREAT-BRITAIN: The moſt eſſential Rights of Britiſh Subjects are thoſe of being repreſented in the ſame Body which exerciſes the Power of levying Taxes upon them, and of having their Property tried by Juries: Theſe are the very Pillars of the Britiſh Conſtitution, founded in the common Rights of Mankind.---It is certain that we were in no Senſe repreſented in the Parliament of Great-Britain when this Act of Taxation was made: And it is alſo certain that this Law admits of our Properties being tried, in Controverſies ariſing from internal Concerns, by Courts of Admiralty, without a Jury: It follows, that at once it annihilates the moſt valuable Privileges of our Charter, deprives us of the moſt eſſential Rights of Britons, and greatly weakens the beſt Security of our Lives, Liberties and Eſtates; which may hereafter be at the Diſpoſal of Judges who may be Strangers to us, and perhaps malicious, mercenary, corrupt and oppreſſive.

But admitting that we had no Complaints of this Nature, we ſhould ſtill have Reaſon to except againſt the Inequality of theſe Taxes:---It is well known that the People of this Province have not only ſettled this Country, but enlarged and defended the Britiſh Dominion in America with a vaſt Expence of Treaſure and Blood: They have exerted themſelves in the moſt diſtinguiſhed Services for the King, by which they have often been reduced to the greateſt Diſtreſs: And in the late War more eſpecially, by their ſurpriſing Exertions, they have brought upon themſelves a Debt almoſt inſupportable: And we were well aſſured, that in theſe expenſive Services, for which very little, if any, Advantage hath ever accrued to themſelves, together with the neceſſary Charges of ſupporting and defending His Majeſty's Government here, had been duly eſtimated, the Monies deſigned to be drawn from us by this Act, would have appeared greatly beyond our Proportion.

We look upon it as a peculiar Hardſhip, that when the Repreſentative Body of this Province had prepared and ſent forward, a decent Remonſtrance againſt theſe Proceedings, while they were depending in the Houſe of Commons, it failed of Admittance there: And this we eſteem the more extraordinary, inaſmuch as, being unrepreſented, it was the only Method whereby they could make known their Objections to Meaſures, in the Event of which their Conſtituents were to be ſo deeply intereſted.

Moreover this Act, if carried into Execution, will become a further Grievance to us, as it will afford a Precedent for the Parliament to tax us, in all future Time, and in all ſuch Ways and Meaſures, as they ſhall judge meet, without our Conſent.

We therefore think it our indiſpenſible Duty, in Juſtice to ourſelves and Poſterity, as it is our undoubted Privilege, in the moſt open and unreſerved, but decent and reſpectful Terms, to declare our greateſt Diſſatisfaction with this Law: And we think it incumbent upon you, by no Means to join in any publick Meaſures for countenancing and aſſiſting in the Execution of the ſame; but to uſe your beſt Endeavours in the General Aſſembly, to have the inherent unalienable Rights of the People of this Province aſſerted and vindicated, and left upon the publick Records, that Poſterity may never have Reaſon to charge the preſent Times with the Guilt of tamely giving them away.

It affords us the greateſt Satisfaction to hear that the Congreſs propoſed by the Houſe of Repreſentatives of this Province, is conſented to by the Repreſentatives of moſt of the other Colonies on the Continent.---We have the warmeſt Expectations from the united Councils of that very reſpectable Committee: And we may, with the ſtricteſt Propriety, enjoin upon Mr. OTIS, a Member of the ſame, being alſo one of the Repreſentatives of this Town, to contribute the utmoſt of his Ability, in having the Rights of the Colonies ſtated in the cleareſt View, and laid before the Parliament; and in preparing a humble Petition to the KING, our Sovereign and Father, under whoſe gracious Care and Protection, we have the ſtrongeſt Reaſon to hope, that the Rights of the Colonies in general, and the particular Charter Rights of this Province, will be confirmed and perpetuated.

We further inſtruct you to take particular Care that the beſt Oeconomy may be uſed in expending the publick Monies, and that no unaccuſtomed Grants may be made to thoſe who ſerve the Government: And we in general recommend to your Care, that the Monies of the Province, drawn from the Individuals of the People, at a Time when almoſt every Avenue of our Trade is obſtructed, may not be applied to any other Purpoſes, under any Pretence, of neceſſary contingent Charges, but what are evidently intended in the Act for ſupplying the Treaſury."

ON a Motion made and ſeconded, at the above Meeting, it was unanimouſly Voted, That the Hon. James Otis, Eſq; the Moderator, the Hon. Samuel Welles, Eſq; the Hon. Harriſon Gray, Eſq; the Hon. Royall Tyler, Eſq; Joſhua Henſhaw, Eſq; John Rowe, Eſq; and Mr. Samuel Adams, be a Committee to draw up and tranſmit, by the firſt Opportunity, to the Right Honourable General CONWAY, now one of his Majeſty's Principal Secretaries of State, and to Colonel ISAAC BARRE, a Member of Parliament, ſeveral Addreſſes, humbly expreſſing the ſincere Thanks of this Metropolis of His Majeſty's ancient and loyal Province of the Maſſachuſetts-Bay; for their noble, generous, and truly patriotic Speeches, at the laſt Seſſion of Parliament, in Favour of the Colonies, their Rights and Privileges: And that correct Copies of the ſame be deſired, that they may be depoſited among our moſt precious Archives. Alſo voted, That thoſe Gentlemens Pictures, as ſoon as they can be obtained, be placed in Faneuil-Hall, as a ſtanding Monument, to all Poſterity, of the Virtue and Juſtice of our Benefactors, and a laſting Proof of our Gratitude.

Atteſt. WILLIAM COOPER, Town-Clerk.

It is reported that Sir GEORGE SAVILLE, Sir WILLIAM BAKER, and ſome others, Members of Parliament, ſpoke in Favour of the Colonies as well as General CONWAY and Mr. BARRE, but it is only the Speeches of the latter Gentlemen that have as yet been ſeen in Print.

We hear the Right Hon. Lord Adam Gordon, has lately expreſſed the high Pleaſure and Satisfaction he has received in his Tour thro' America; his great Affection for the Colonies, and his Regret that his Affairs would not admit of his ſpending more Time in them.

The happy Proſpect of the great Pitt's being again, under His Majeſty, at the Head of Affairs, affords the ſtrongeſt Hopes, that the Grievances, which the Nation and her Colonies are under, will be redreſſed, and that the Liberties of America will be reſtored. It is the Opinion however of ſome, that we ought to rejoice with Caution, for until the Eyes of the People at Home can be cleared from the Duſt which has of late been thrown into them, the Stamp Act, ſo truly ſhocking to the Colonies, will remain a Favourite with them. A Repeal of the Act is not certainly to be depended upon, therefore every prudent, juſtifiable Expedient in our Power muſt ſtill be uſed, to bring on, if poſſible, ſo neceſſary an Event.

September 23. In Captain Hulme from London, is come about 14 boxes of ſtamped Paper, deſigned for the Uſe of this Province, New-Hampſhire, and Rhode-Iſland;---thoſe for Connecticut, 'tis ſaid, were to be forwarded in a Veſſel bound to New-York. Captain Hulme was guarded in by the Jamaica Sloop of War and Gaſpee Cutter, and now remains at Anchor in King-Road, under their Protection:---'Tis ſaid thoſe deteſtable Stamps are to be lodged at the Caſtle, and there to remain till further Orders from home, there being at preſent no Demand here for ſuch a ſuperfluous Commodity.

We hear from Dartmouth, that on the 14th ult. in the Afternoon, they had a Tempeſt there, attended with a violent Gale of Wind, or Hurricane, which did conſiderable Damage in the Northern Parts of the Town; blowing down Fields of Corn, Fences, &c. It almoſt wrecked a new Barn, and carried off two Doors ſeveral Rods. In its Way it croſſed the Ground of the Rev. Thomas Weſt, tore up 27 Apple Trees loaded with Fruit, ſome of which were carried to a conſiderable Diſtance; five Hay Stacks, which ſtood in its Way, were entirely diſperſed, beſides conſiderable other Damage.---Its Courſe was from W. N. W. to E. S. E. and its Current or Vortex was judged to be about 20 Rods wide. The Commotion was ſo ſtrong, that ſeveral Pine Limbs were found ſome Miles diſtant from any Trees of that kind.

Extract of a Letter from a Gentleman at New-Hampſhire to his Friend in Boſton.

"Whatever different Intereſts there may be, among the ſeveral provinces and colonies in North-America, it is certain they are all firmly united in this ſingle point, namely, to make a moſt powerful oppoſition to the Stamp-Act, which is juſtly accounted deſtructive of Engliſh Liberty, both in Great Britain and all the American plantations. However, by letters from your Metropolis, we are informed that many among you are of opinion, that (however our Chief may ſtand affected) moſt of our People are for tamely ſubmitting to the unreaſonable hardſhips of the Act. In this I can inform you with great certainty, that you are miſtaken. For though in the days of yore, when good 'Squire Penſhallow flouriſhed, it was confidently ſaid in Boſton, "That the people of New-Hampſhire had but one privilege left them, which was a negative one, not to be ſold for ſlaves," we can now aſſure you, we have a more noble reliſh for Britiſh Liberty. Accordingly, when our Stamp-Maſter arrived among us, had he not humbled himſelf, and made confeſſion, and ſolemnly promiſed to renounce the deteſtable employment of diſtributing the ſtamp papers, he would immediately have felt the warm reſentments of our inraged people. You have liberty to communicate theſe hints to the public, that all North-America may know the general ſentiments of this province, not to ſubmit to the Stamp-Act, or to any other unconſtitutional impoſition.

Saturday laſt the Committee appointed by the Houſe of Repreſentatives of this Province, to meet the Committees of the Aſſemblies of the whole continent, the 1ſt of October at New-York, ſet out for that Place.

Laſt Week was married at Middleborough, Mr. James Freeman, to Mrs. Elizabeth Wright. The whole of their Wedding Clothes were very rich, and manufactured in that Town.---A noble Example of Oeconomy, and truly worthy of Imitation.

It being Cucumber Times with many of the Taylors in Town, they beg the Prayers of all good People that the Stamp-Act may be repealed, as moſt of their Cuſtomers have declared they will have no new Clothes made, until ſuch Time as ſaid Act is repealed.

Yeſterday being the Anniverſary of the Coronation of our Gracious Sovereign King GEORGE the Third, and Queen CHARLOTTE;----on which Occaſion this Morning was uſhered in with ringing of Bells, the Regiment of Militia, and his Excellency's Company of Cadets [notwithſtanding the Duty they have done in the late Military Watch] are now chearfully muſtering, to teſtify their Loyalty to the BEST OF KINGS.---The Guns at Caſtle William, and at the Batteries in Town will be diſcharged at One o'Clock.---May THIS DAY conclude with every Mark of Loyalty and Joy.

NEWPORT, September 23.

A Gentleman of Veracity and Knowledge in England writes, that he is aſſured, from undoubted Authority, that the new Miniſtry are determined to be very favourable to the Colonies, in particular with Regard to the Extenſion of their Commerce.

NEW-HAVEN, September 20.

ON the 17th inſt. the Freemen of this Town met here. After chooſing Roger Sherman, Eſq; and Mr. Samuel Biſhop, to repreſent them in the General Aſſembly to be holden next Month, they unanimouſly choſe Repreſentatives to uſe their utmoſt Endeavours (at the General Aſſembly now ſitting at Hartford, and alſo at the enſuing Seſſions here) to obtain a Repeal of the Stamp Act. The Stampmaſter-General of this Colony was at the ſaid Meeting, when theſe Words were read aloud, "Likewiſe voted that the Freemen preſent, earneſtly deſire Mr. Ingerſoll to reſign his Stamp-Office immediately."----Numerous were the Signs of Conſent to this Vote, when a Gentleman condemned it as needleſs and inconſiſtent, after their former Proceedings. The Stamp-Officer then aroſe and declared in the ſtrongeſt Terms, that he would NOT reſign till he diſcovered how the General Aſſembly were inclined in that Reſpect.

HARTFORD, September 23.

Laſt Wedneſday afternoon, a large company of able bodied men came to town (on horſeback) from the eaſtern parts of this government, and informed thoſe who were willing to join them, that they were on their way to New-Haven, to demand of the ſtamp officer of this colony to reſign his office, that a number of their companions, were gone on the lower roads, and that they had all agreed to rendezvous at Branford, the next day [Thurſday] and that they ſhould tarry in town that night; they then diſperſed to different parts of the town for lodging. In the evening, advice was received, that Mr. Ingerſoll was on the road to this place, that he would be in town the next day, and that he intended to apply to the aſſembly for their protection; and it being conjectured, that he might come to town in the night, to ſhun the mob (who he had heard were on their way to pay him a viſit) it was agreed that a watch ſhould patrol the ſtreets all night, to prevent his coming in unnoticed, but they made no diſcoveries. On Thurſday morning, the whole body, including a conſiderable number from this town, ſet off, on their intended expedition, and in about an hour met Mr. Ingerſoll, at the lower end of Weathersfield, and let him know their buſineſs; he at firſt refuſed to comply, but it was inſiſted upon, that he ſhould reſign his office of ſtamp-maſter, ſo diſagreeable to his countrymen; after many propoſals, he delivered the reſignation mentioned below, which he read himſelf in the hearing of the whole company; he was then deſired to pronounce the words, LIBERTY AND PROPERTY, three times, which having done, the whole body gave three huzzas; Mr. Ingerſoll then went into a tavern, and dined with ſeveral of the company: After dinner the company told Mr. Ingerſoll, as he was bound to Hartford, they would eſcort him there, which they did, to the number of almoſt 500 perſons on horſeback. After they arrived in town, Mr. Ingerſoll again read his reſignation in public, when three huzzas more were given, and the whole company immediately diſperſed without making the leaſt diſturbance.

The following is a Copy of Mr. Ingerſoll's Reſignation.

In witneſs whereof I have hereunto ſet my hand.

PHILADELPHIA, October 3.

Mr. HALL,

I AM deſired, by his Excellency the Governor, to ſend you the incloſed Advertiſement, that the ſame may be inſerted in the next Gazette, that the good People of this Province may not be impoſed on by falſe Reports, relative to the Governor's Conduct, with reſpect to the Detaining the Letter from the Speaker of the General Court of Maſſachuſetts, to the Speaker of the General

Assembly of New-Jersey, and his arbitrarily refusing to summon the Assembly to meet. I am, SIR,

Your very humble Servant,

Burlington, Oct. 2, 1765. CHARLES READ.

Burlington, New-Jersey, October 1, 1765.

WHEREAS a Report has for some Time past been circulated, That the Governor of this Province received the Letter sent by the Speaker of the General Court of Massachusetts Bay, to the Speaker of the Assembly of New-Jersey, detained it in his Possession till the last Day of the late Meeting at Burlington, and, by his Management, prevailed on the Assembly not to accept of the Invitation to send Commissioners to New-York. And whereas a Paper has been printed and published at Philadelphia, positively asserting, "That the Governor of New-Jersey has made "STRONG EFFORTS to subdue the SPIRIT of LIBERTY in his "Government, and ARBITRARILY REFUSES to give his Assembly an Opportunity to join the other Assemblies in decent "Remonstrances against the STAMP LAW, although NINE "TENTHS of the People of the Jerseys now VEHEMENTLY DESIRE it. Nor does he confine himself to his own Government alone, but, by the Assistance of Mr. G------y, is said to have "PRACTISED on the eight Members of a certain County, not very remote from him, in order to get them to carry a Vote against sending Commissioners to New-York, that the Pennsylvania Assembly might thus keep the Jersey one in Countenance."

Now this is to assure the Publick, that so far from my having RECEIVED and DETAINED the above mentioned Letter, I have not even yet SEEN it; that I never heard of any such Letter being sent to, or received by, the Speaker, till the Day after the House had finished their Business, and were prorogued, when I was told that they had had it under their Consideration, and had ordered an Answer to be wrote at the Table, acquainting the Speaker of Massachusetts, that they UNANIMOUSLY declined complying with the Proposal from the Assembly of that Province; nor was the said Answer ever shewn to me, though wrote the 20th of June last, until some time in the Beginning of September. That from the last Sessions to this present Time, not a single Member of the Council, or House of Representatives, nor any other Person whatever in the Province, has desired me to call another Meeting of the Assembly. That it is well known to several of the Representatives, that I have often declared I would always, if in my Power, give the House an Opportunity of meeting, when the Speaker and nine or ten Members should represent to me that the Business of the Publick made it necessary.---- And I do likewise aver, that so far from my having practised on the eight Members of Bucks County, in order to get them to carry a Vote against sending Commissioners from Pennsylvania to New-York, I have not, to my Knowledge, seen one of them these two Years past; nor have I, either through Mr. Galloway or otherwise, had the least Connection or Correspondence with them, or any other Person in the County, on any Subject whatever. Nor have I, either to Mr. Galloway, or to any one Man in Pennsylvania, given the least Intimation that it would, or would not, be agreeable to me, that the Assembly of that Province should send Commissioners to the intended Congress.

I should not have thought it necessary to give this public Refutation of the Falshoods contained in the Report and Paper abovementioned, had they not been propagated and published with a View of taking Advantage of the present Commotions to excite a Difference between me and a People for whom I have a great Regard, and with whom I have lived in uninterrupted Harmony ever since my Arrival in the Government. And I cannot help expressing my Surprize that Mr. Shippen, the Deputy Governor's Secretary, Mr. Chew, the Attorney General, and others of the principal Officers of the Government of Pennsylvania, could have given their public Countenance to such a flagrant Piece of Injustice. This they did (as I am credibly informed) by employing the Clerk of the Court to read aloud the Paper above quoted to a large Number of People collected by their Agents for the Purpose, and signifying their Approbation by loud Huzzas at the Close of every Paragraph.

As to what is contained in the said Paper relative to my Father's being concerned in the planning and promoting the STAMP-ACT, it is grossly false, and consequently a shameful Imposition on the People. Not a Gentleman of the Proprietary Party, even among those who scruple not to aver the Truth of it in Conversation, can, I am convinced, be found so hardened as to avow in Print, with his Name subscribed, that he believes it to be true, or to undertake to produce any Proofs in its Support.----My Father is absent---but he has left Friends enough on the Spot, who are both capable and willing to clear him from any Aspersions which the Malice of the Proprietary Party can suggest. To those Friends I leave the Defence of his Reputation, if it can need any, being determined to concern myself no farther with the Disputes of Pennsylvania than as they relate to my Character, or have Reference to the public Transactions of this Province.

WILLIAM FRANKLIN.

By Captain Stephenson from Ivica, but last from Gibraltar, we have Advice, that the British Consul at Tripoli was confined to his House, by Order of the Dey; that some Englishmen, from Port-mahon, had been bastinadoed there; and that the British Flag was forbid to be hoisted at that Place by the Sovereign. This Account was sent to the English Commodore at Leghorn, in order to give Notice to all English Vessels of what had happened.

Captain Stephenson, on his Passage, on the 5th of last Month, in Lat. 29: 45, Long. 63: 5, spoke with Captain Bridges, in a Sloop from this Port, bound to St. Christophers, who the Day before had met with a very severe Gale of Wind, which obliged him to throw Part of his Cargoe overboard.----In the same Gale Captain Stephenson carried away his Fore-top-mast, and Main-top-gallant-mast, and received other Damage. And on the 21st, in the Night, he spoke a Brig, but, being then in a Gale of Wind, he could not learn who she was, or from whence she came, only that she was bound to New-York.

The Assembly of Maryland, we hear, have appointed Messieurs Tilghman, Ringold and Murdoch, to assist at the General Congress at New-York------Messieurs Kollock, Rodney and M'Keane, are gone on the same Business from the Government of New-Castle, Kent and Sussex, upon Delaware----And this Day there is a Meeting of the Members of the General Assembly of the Province of New-Jersey at Amboy, by a Letter from their Speaker, relating to sending some Gentlemen likewise to the Congress.

Since our last Captain Sibbald arrived here from Madeira; about four Weeks ago he spoke a Ship from Barbados, bound to Liverpool; and about two Weeks since, in Lat. 30, Long. 72, he spoke with Captain Devonshire, in a Schooner, from the Coast of Africa for New-York. Off Cape-Hatteras Captain Sibbald met with pretty hard Gales of Wind at North-East.

The Captains Bryan and Holland are arrived from London; the latter of which has the Stamped Paper on board for this Province, and is under the Care of the Sardine Man of War, Captain Hawker, at New-Castle.

On Thursday last, at a Court of Oyer and Terminer held here, Henry Hulbert was indicted for the Murder of Jacob Woolman; to which Indictment he pleaded Guilty, and received Sentence of Death.

Arrived at St. Christophers. Captain Mills, from Maryland; Captain Drummond, from Georgia; Captain Haynes, from Virginia; and the Captains Martino and M'Cutchen, from New-York.

Carlisle, September 25, 1765.

"Last Sunday Evening departed this Life Mrs. MARY CALLENDER (Wife to Captain ROBERT CALLENDER) after a short Indisposition, with complicated Disorders. She was a Gentlewoman of a fair and good Character, an amiable and loving Wife, an affectionate and tender Mother, and very charitable to the Poor. She was much regreted by all who had the Happiness of her Friendship and Acquaintance. Her Remains were Yesterday attended by a Multitude of People from Captain Callender's House in the Country, to his House in Town, where they remained for some Time, then proceeded to the Church, where the Reverend WILLIAM THOMSON gave a Discourse, from St. James, 1st Chapter, and 12th Verse: "Blessed is the Man that endureth Temptation, for when he is "tried he shall receive a Crown of Life, which the Lord hath "promised to them that love him." From thence they proceeded to the Grave, where she was interred, amidst the Cries and Lamentations of almost every one present."

We gratefully acknowledge the obliging Diſpoſition already ſhewn by the Public to encourage our Undertaking of the Rum Diſtillery, and venture to hope for the further Continuance of their Favour, in carrying on a Scheme of ſuch apparent Utility to the Trade of the Province; more eſpecially at a Juncture when the Neceſſity, as well as Advantage, of promoting our own Manufactures, is become ſo very apparent. It is with ſingular Satisfaction we find our Hopes ſo fully anſwered, by the general Approbation given our Rum for its ſuperior Quality; and we are determined to ſupport its Character, ſhould our Profits be ever ſo ſmall. Some Obſtacles that hitherto prevented our diſtilling ſo faſt as expected being removed, the Buſineſs of the Diſtillery is now carried on by us in the moſt extenſive Manner, by which Means, having a conſtant Stock of Rum on Hand, our Friends, either in this or the neighbouring Provinces, may depend on being always well ſupplied. Importers of Melaſſes may depend on conſtant Purchaſes of the ſame, for which we ſhall always allow the Philadelphia Prices, or be willing to contract with Gentlemen inclined to import Melaſſes, before their Veſſels go out.

AS the Neceſſity of cultivating Medical Knowledge in America is allowed by all, it is with Pleaſure we inform the Public, that Courſes of Lectures, on two of the moſt important Branches of that uſeful Science, viz. ANATOMY, and MATERIA MEDICA, will be delivered this Winter in Philadelphia. We have great Reaſon therefore to hope, that Gentlemen of the Faculty will encourage the Deſign, by recommending it to their Pupils; that Pupils themſelves will be glad of ſuch an Opportunity of Improvement; and that the Public will think it an Object worthy their Attention and Patronage.---In order to render theſe Courſes the more extenſively uſeful, we intend to introduce into them, as much of the Theory and Practice of Phyſic, of Pharmacy, Chemiſtry and Surgery, as can conveniently be admitted. From all this, together with an Attendance on the Practice of the Phyſicians and Surgeons of the Pennſylvania Hoſpital, the Students will be able to proſecute their Studies with ſuch Advantage, as will qualify them to practiſe hereafter with more Satisfaction to themſelves, and Benefit to the Community. The particular Advertiſements inſerted below, ſpecify the Time when theſe Lectures are to commence, and contain the various Subjects to be treated of in each Courſe, and the Terms on which Pupils are to be admitted.

WILLIAM SHIPPEN, jun. M. D.
Profeſſor of Anatomy and Surgery in the College of Philadelphia.
JOHN MORGAN, M. D. F. R. S.
And Profeſſor of Medicine in the College of Philadelphia.

DOCTOR SHIPPEN's Courſe of ANATOMICAL LECTURES will begin on Thurſday, the 14th of November, 1765; it will conſiſt of about 60 Lectures, in which the Situation, Figure and Structure of all the Parts of the human Body, will be demonſtrated on the freſh Subject; their reſpective Uſes explained, and their Diſeaſes, with the Indications, and Method of Cure, briefly treated of; all the neceſſary Operations in Surgery will be performed, a Courſe of Bandages given; and the whole conclude with a few plain and general Directions in the Practice of Midwifery. Each Perſon to pay Six Piſtoles.

Thoſe who incline to attend the Pennſylvania Hoſpital, and have the Benefit of the curious Anatomical Plates and Caſts there, to pay Six Piſtoles to that uſeful Charity.

*** It has given Dr. Shippen much Pain to hear, that notwithſtanding all the Caution and Care he has taken, to preſerve the utmoſt Decency in opening and diſſecting dead Bodies, which he has perſevered in, chiefly from the Motive of being uſeful to Mankind, ſome evil-minded Perſons, either wantonly or maliciouſly, have reported to his Diſadvantage, that he has taken up ſome Perſons who were buried in the Church Burying Ground, which has diſtreſſed the Minds of ſome of his worthy Fellow Citizens.---The Doctor, with much Pleaſure, improves this Opportunity to declare, that the Report is abſolutely falſe; and to aſſure them, that the Bodies he diſſected, were either of Perſons who had wilfully murdered themſelves, or were publickly executed, except now and then one from the Potters Field, whoſe Death was owing to ſome particular Diſeaſe; and that he never had one Body from the Church, or any other private Burial Place.

A COURSE of LECTURES, on the MATERIA MEDICA. By JOHN MORGAN, M. D. F. R. S. and Profeſſor of Medicine in the College of Philadelphia. Price Four Piſtoles.

THIS Courſe will commence on Monday, the 18th Day of November, and be given three times a Week, at the College, viz. Mondays, Wedneſdays and Fridays, at Three o'Clock in the Afternoon, till finiſhed, which will laſt between three and four Months.

To render theſe Lectures as inſtructive as poſſible to Students of Phyſic, the Doctor propoſes, in the Courſe of them, to give ſome uſeful Obſervations on Medicine in general, and the proper Manner of conducting the Study of Phyſic. The Authors to be read, in the Materia Medica, will be pointed out. The various Subſtances made uſe of in Medicine, will be reduced under Claſſes ſuited to the principal Indications in the Cure of Diſeaſes. Similar Virtues in different Plants, and their comparative Powers, will be treated of, and an Enquiry made into the different Methods which have been uſed in diſcovering the Qualities of Medicines; the Virtues of the moſt efficacious will be particularly inſiſted upon; the Manner of preparing and combining them will be ſhewn by ſome inſtructive Leſſons upon pharmaceutic Chemiſtry: This will open to Students a general Idea both of Chemiſtry and Pharmacy. To prepare them more effectually for underſtanding the Art of preſcribing with Elegance and Propriety, if Time allows, it is propoſed to include in this Courſe ſome critical Lectures upon the chief Preparations contained in the Diſpenſatories of the Royal Colleges of Phyſicians at London and Edinburgh. The whole will be illuſtrated with many uſeful Practical Obſervations on Diſeaſes, Diet and Medicines.

No Perſon will be admitted, without a Ticket for the whole Courſe. Thoſe who propoſe to attend this Courſe, are deſired to apply to the Doctor for Tickets, at leaſt a Week before the Lectures begin. A Dollar will be required of each Student, to matriculate, which will be applied in purchaſing Books for a Medical Library in the College, for the Benefit of the Medical Students.

Containing the freshest Advices, Foreign and Domestic.

PRINCE-TOWN, September 25, 1765.

THIS Day the Trustees of the College of New-Jersey attended the public Commencement. The Exercise was preceded by an animated Latin Oration "on the Evils to which a People is liable, when involved in Debt," delivered with great Propriety and Spirit, by Mr. Jonathan Edwards, one of the Candidates for Batchelors Degrees. Then succeeded Syllogistic Disputes in Latin, and Forensic in English, as usual, that all Parts of the Auditory might share in the Entertainment.----The following Theses were debated in the Forenoon.

1. "Dictamina conscientiæ semper sequenda sunt.
2. "To play at Cards or Dice, is neither expedient nor lawful.
3. "Comedese sanguinem nunc temporis fas est.
4. "A wicked Man cannot be an accomplished Orator."

The several Respondents and Opponents acquitted themselves to general Satisfaction. After the two former Disputes, a short intermediate Oration, for the Sake of Variety, was introduced by Mr. Richard Goodman, in which he pointed out the Difference between the Eloquence of Cicero, and that of Demosthenes, with their peculiar Excellencies; his Delivery very well exemplified his Subject. The Exercises of this Part of the Day were closed with an Oration on LIBERTY, pronounced with Beauty and Propriety by Mr. Jacob Rush.

The Theses debated in the Afternoon were,

1. "Quo magis necessarie sensu morali, eo liberus, agit homo.
2. "There cannot be true Friendship but among the Good."

The former in the Syllogistic, the latter in the Forensic Way, as before. These were succeeded by an elegant valedictory Oration on PATRIOTISM, pronounced by Mr. Ebenezer Pemberton, in the Close of which the usual Addresses were delivered with such Tenderness, and Marks of sincere Affection, as sensibly touched the whole Audience. After the Degrees were conferred, Mr. Joseph Periam, one of those who had just received the Degree of Master of Arts, highly entertained the Assembly with an animated and elegant Oration on FRUGALITY. A polite Dialogue on LIBERTY, composed and delivered by three of the Candidates for Batchelors Degrees, finished the Business of the Day.

The following young Gentlemen were admitted to the Degree of Batchelors of Arts, Jacob Van Arsdalen, John Bacon, John Bay, Joel Benedict, Joseph Chambers, George Corbin, Gersham Craven, William Davis, Jonathan Edwards, Samuel Finley, Joseph Finley, Richard Goodman, Robert Halstead, Richard Hutson, Samuel Kirtland, Alexander M'Causland, Alexander Mitchell, Robert Ogden, Jonathan Ogden, Henry Parkinson, Ebenezer Pemberton, Edward Pope, David Ramsay, Theodoric Romeyn, Jacob Rush, John Staples, Henry Stephenson, Alexander Thoyer, Stephen Vorhies, Simeon Williams, and Samuel Williams.

The following were admitted Masters of Arts, Joseph Shippen, Esq; the Rev. Messieurs William Gordon, and William Ramsay, Isaac Allen, Absalom Bainbridge, Ebenezer Hazard, James Manning, Nathaniel Manning, Joseph Periam, Jonathan Sergeant, and Jasper Smith.----The Rev. Thomas Romeyn, and Mr. Jedediah Chapman, were admitted to the honorary Degree of Masters of Arts.

Upon the whole, we cannot but do the young Gentlemen the Justice to observe, that such a Spirit of Liberty, and tender Regard for their suffering Country, breathed in their several Performances, as gave an inexpressible Pleasure to a very crouded Assembly. To testify their Zeal to promote Frugality and Industry, so warmly recommended in several of their Performances, they unanimously agreed, some Time before the Commencement, to appear on that public Occasion dressed in American Manufactures, which very laudable Resolution they all executed, except-ing four or five, whose Failure was entirely owing to Disappointments, tho' we doubt not but they made a much more decent Appearance in the Eyes of every Patriot present, than if the richest Production of Europe or Asia had been employed to adorn them to the best Advantage. We can with Pleasure take this Opportunity further to inform the Public, that the Under-graduates have agreed to follow this noble Example. If young Gentlemen of Fortune and Education, many of whom will probably shine in the various Spheres of public Life, would thus voluntarily throw aside those Articles of Superfluity and Luxury, which have almost beggared us, and exert themselves for the Encouragement of Industry, it is not easy to conceive what a wide extended Influence their Conduct will naturally have on all the lower Ranks of Mankind.

September 30. Last Friday Afternoon his Excellency the Governor was pleased to send the following Message to both Houses of Assembly viz.

Gentlemen of the Council, and Gentlemen of the House of Representatives,

THE Importance of the Business which is now before you, requires that there should be the fullest Assembly that can be had. But I find that the Courts of Justice, which are held in different Parts of the Country about this Time, have prevented many Members of both Houses from attending for some Time. I therefore think it proper to give you the Recess I proposed immediately, hoping that at the next Meeting every Member, who is not hindered by absolute Necessity, will attend. I do accordingly adjourn this General Court unto Wednesday, the 23d Day of October.

Council Chamber, Sept. 27, 1765. FRANCIS BARNARD.

[The General Court met the 25th.]

THE following are sent to us as Copies of his Excellency's Message to both Houses of Assembly, in their late Session, and the Answer of the House of Representatives thereto.

Gentlemen of the Council, and Gentlemen of the House of Representatives,

A Ship is arrived in the Harbour with stamped Papers on board for the King's Use in this Province, and also with other stamped Papers for the like Use for the Province of New-Hampshire, and Colony of Rhode Island; as Mr. Oliver has declined the Office of Distributor of stamped Paper, and cannot safely meddle with what are arrived, the Care of them devolves to this Government, as having a general Charge of the King's Interest within it. I have already laid this Matter before the Council, and they have referred it to a General Court, I therefore now apply to you jointly to desire your Advice and Assistance, in order to preserve the stamped Papers designed for this Government, being the King's Property, of very considerable Value, safe and secure for his Majesty's further Orders. I must also desire you at the same Time to consider of the like Preservative of the stamped Papers designed for New-Hampshire and Rhode-Island, if the Distributors appointed for those Governments should decline to have the Charge of them, and in such Case the Care of them will devolve to this Government, equally with the others.

May it please your Excellency,

THE House having given all due Attention to your Excellency's Message of this Day, beg Leave to acquaint your Excellency, that the stamped Papers mentioned in your Message, are brought here without any Directions to this Government: It is the Sense of the House, that it may prove of ill Consequence for them any Ways to interest themselves in this Matter; We hope therefore your Excellency will excuse us, if we cannot see our Way clear to give you any Advice or Assistance herein."

We are informed that a Number of very spirited and pertinent Resolves were preparing by some Members of the House of Representatives respecting the Stamp Act, and the inherent unalienable Rights of the People of the Colonies, as they are affected by it, which sudden and unexpected Adjournment of the Assembly prevented being communicated to the House.

We hear from Newbury, That a Person was hung and burnt in Effigy there, last Week, for speaking in Favour of the Stamp-Act.

Captain Hulme in the last Ship from London arrived here, having some stamped Paper on board, remains yet in King-Road, near Castle William, with the Jamaica, Fortune, and Tryal Sloops of War, and Gaspee Cutter.

NEWPORT, September 30.

Extract of a Letter from a Gentleman of Distinction in England, to one in this Town, dated July 16, 1765.

By a Letter from Kingston, in Jamaica, dated August 18, we are advised, that Captain Tosh of this Port, 5 Weeks before, was taken by a Spanish Guarda Costa, and carried to Carthagena. Two of his Men made their Escape, and had arrived at Kingston.

NEW-YORK, October 3.

The Commissioners from several Colonies, for holding the general Congress here, on the common and most important Interest of America at this alarming Juncture, are come to Town, and the rest daily expected: We hear they have already begun their Conferences, which it is supposed will be continued a sufficient Time to answer the Purposes of their appointment.

On Monday last came to Town, the Hon. Lord Adam Gordon, after a Tour through his Majesty's American Islands, and Colonies on the Continent; and we hear intends to go for England by the next Packet.

Oct. 7. A Letter from London, dated August 10, says, "I am very sorry to hear such repeated bad Accounts from America, but at the same Time, I have the Pleasure to tell you, that it is generally believed, that the new Ministry will repeal the STAMP ACT this next Sessions; for my own Part, I make no doubt of it."

PHILADELPHIA, October 10.

On Saturday, the 5th Instant, the Ship Royal Charlotte, Capt. Holland, came up to this City, attended by His Majesty's Ship Sardine, James Hawker, Esq; Commander. Capt. Holland having brought from London the Stamped Papers for Maryland, New-Jersey and this Province, had remained some Time at New-Castle on Delaware, under Protection of the Man of War; and on the first Appearance of these Ships round Gloucester Point, all the Vessels in the Harbour hoisted their Colours half Mast high, the Bells began to ring, being first muffled, and continued so until the Evening, and every Countenance added to the Appearance of sincere Mourning, for approaching Loss of Liberty. At Four o'Clock in the Afternoon several Thousand Citizens met at the State-house, to consider the proper Ways and Means for preventing that unconstitutional Act of Parliament (the Stamp Act) being carried into Execution: The first Measure was, to send Seven of their Number to Mr. Hughes, Stamp-Distributor for this Province, to request he would resign that Office. He assured them no Act of his should tend to carry that Law into Execution here, until it was generally complied with in the other Colonies, but refused to sign any Resignation at that Time, for various Reasons, which he assigned. On the Gentlemens Return to the State-House, and reporting this Answer, the Company were instantly transported with Resentment, and it is impossible to say what Lengths their Rage might have carried them, had not the Gentlemen who waited on Mr. Hughes represented him in the Light he appeared to them, at the Point of Death; his Situation raised their Compassion, and they happily communicated their Feelings to all the People assembled; and instead of the Multitude repairing instantly to his House for a positive Answer, they agreed to make their Requisition in Writing, and gave Mr. Hughes until Monday Morning to make a Reply. In Consequence of this Determination, a short Paper was instantly drawn up, and sent to him; and on Monday Morning the Deputies received from him a Writing, which was brought to the Court-House, and there read aloud to a vast Concourse of People, as follows.

Philadelphia, Monday Morning, October 7, 1765.

WHEREAS about Six o'Clock on Saturday Evening last, a Paper was sent to me, expressing, that "a great Number of the Citizens of Philadelphia, assembled at the State-House, do demand of Mr. John Hughes, Distributor of Stamps for Pennsylvania, that he will give them Assurance, under his Hand, that he will not execute that Office; and expect that he will give them a fair, candid and direct Answer by Monday next, at Ten o'Clock, when he will be waited on for that Purpose."

Saturday, October 5, 1765.

I DO therefore return for Answer to those Gentlemen, and all their Associates, That I have not hitherto taken any Steps tending to put the late Act of Parliament into Execution in this Province; and that I will not, either by myself or my Deputies, do any Act or Thing that shall have the least Tendency to put the said Act into Execution in this Province, until the said Act shall be put into Execution generally in the neighbouring Colonies, and this I am determined to abide by.

And whereas my Commission includes the three Counties of New-Castle, Kent and Sussex, upon Delaware, I do, therefore, hereby voluntarily inform the good People of those Counties, that no Act of mine shall, either directly or indirectly, involve them into any Difficulties with respect to the said Stamp Act, before the same shall take Place generally in the neighbouring Colonies.

JOHN HUGHES.

This Paper from Mr. Hughes at first gained the Approbation of three Huzza's; but we find many People much dissatisfied with it since, as they think he ought to have resigned his Office without Reservation; and, from the Spirit which discovers itself amongst all Ranks of People, we have Reason to think this Declaration would not have quieted the Inhabitants, had Mr. Hughes been in better Health. Captain Hawker, having taken the Stamp Papers on board His Majesty's Ship, prevents them from being exposed to the Resentment of an injured and enraged People. Thus have we, in some Degree, followed the Example of our Fellow Sufferers in the neighbouring Colonies; and the cool thinking People among us, congratulate themselves, and their Country, on finding Spirit enough exerted, to put us on the same Footing with

the reſt of the Continent; and that this was done by Men who had Moderation not to proceed to any unneceſſary Acts of Violence.---It may not be amiſs to inform the Publick, that Mr. Hughes did declare, upon his Honour, he would not receive, or take any Charge of the ſtamped Papers; and, as we have no Reaſon to doubt his firm Adherence to any Reſolution he makes, we think there is no Danger of their being diſtributed in this Province."

At a meeting of the Lawyers at the Supream Court, held at Perth Amboy, on the 20th ult. like true born ſons of Liberty, and lovers of their country, the Chief Juſtice having propoſed the following QUERIES, agreed and came into the under mentioned RESOLVES, which will always redound to their Honour.

Firſt. Whether if the Stamps ſhould arrive, and be placed at the city of Burlington, by or after the firſt of November, they would, as practitioners, agree to purchaſe them, or any of them, for the neceſſary proceedings in the law?

Reſolved, by the whole body, N. C. they would not, but rather ſuffer their private intereſt to give way to the public good, protesting at the ſame time againſt all indecent or riotous behaviour, which they will diſcountenance by every means in their power, to preſerve order, and by an abſolute refuſal to make uſe of the Stamps, and other quiet methods, endeavour to obtain a repeal of the law.

Second. Whether it was their opinion, that ſhould the act take place, the duties could poſſibly be paid in gold and ſilver?

Anſwered by the whole body, It could not be paid in gold and ſilver even for one year.

Third. Their opinion was deſired, whether, as the act required the Governor and Chief Juſtice to ſuperintend the diſtributor, he ſhould be obliged to take charge of the diſtribution of the Stamps, by order and appointment of the Governor, if he ſhould think proper to fix upon him for that office.

Anſwered and adviſed, not to take it upon him, the Governor not being impowered by the act to appoint, or if he was, it was left to the Chief Juſtice's option, and that it would be incompatible with his office as Chief Juſtice."

ORDERED, That Mr. JONAS GREEN, Printer, do publish in the MARYLAND GAZETTE, next Week, the following RESOLVES of this House.

Signed per Order,

M. MACNEMARA, Cl. Lo. Ho.

I. RESOLVED UNANIMOUSLY, That the first Adventurers and Settlers of this Province of Maryland, brought with them, and transmitted to their Posterity, and all other his Majesty's Subjects since inhabiting in this Province, all the Liberties, Privileges, Franchises, and Immunities, that at any Time have been held, enjoyed and possessed, by the People of Great-Britain.

II. RESOLVED UNANIMOUSLY, That it was granted by Magna Charta, and other the good Laws and Statutes of England, and confirmed by the Petition and Bill of Rights, that the Subject should not be compelled to contribute to any Tax, Tallage, Aid, or other like Charge, not set by common Consent of Parliament.

III. RESOLVED UNANIMOUSLY, That by a Royal Charter, granted by his Majesty King Charles the First, in the Eighth Year of his Reign, and in the Year of our Lord One Thousand Six Hundred and Thirty-two, to Cæcilius, then Lord Baltimore, it was, for the Encouragement of People to transport themselves and Families into this Province, amongst other Things, covenanted and granted by his said Majesty, for Himself, his Heirs, and Successors, as followeth: "And we will also, and of our more special Grace, for Us, our Heirs, and Successors, we do strictly enjoin, constitute, ordain, and command, That the said Province shall be of our Allegiance, and that all and singular the Subjects and liege People of Us, our Heirs, and Successors, transported, or to be transported, into the said Province, and the Children of them, and of such as shall descend from them, there already born, or hereafter to be born, be, and shall be Denizens and Liegees of Us, our Heirs, and Successors, of our Kingdoms of England and Ireland, and be in all Things held, treated, reputed and esteemed, as the liege faithful People of Us, our Heirs, and Successors, born within our Kingdom of England, and likewise any Lands, Tenements, Revenues, Services, and other Hereditaments whatsoever, within our Kingdom of England, and other our Dominions, may inherit, or otherwise purchase, receive, take, have, hold, buy and possess, and them may occupy and enjoy, give, sell, alien, and bequeath, as likewise, all Liberties, Franchises, and Privileges, of this our Kingdom of England, freely, quietly and peaceably, have and possess, occupy and enjoy, as our liege People, born, or to be born, within our said Kingdom of England, without the Lett, Molestation, Vexation, Trouble, or Grievance, of Us, our Heirs, and Successors; any Statute, Act, Ordinance, or Provision, to the contrary thereof notwithstanding.

"And further, our Pleasure is, and by these Presents, for Us, our Heirs, and Successors, We do covenant and grant, to and with the said now Lord Baltimore, his Heirs and Assigns, that We, our Heirs and Successors, shall at no Time hereafter, set or make, or cause to be set, any Imposition, Custom, or other Taxation, Rate or Contribution whatsoever, in or upon the Dwellers and Inhabitants of the foresaid Province, for their Lands, Tenements, Goods or Chattels, within the said Province, or in or upon any Goods or Merchandizes, within the said Province, or to be laden and unladen within any the Ports or Harbours of the said Province: And our Pleasure is, and for Us, our Heirs, and Successors, We charge and command, that this our Declaration shall be henceforward, from Time to Time, received and allowed in all our Courts, and before all the Judges of Us, our Heirs, and Successors, for a sufficient and lawful Discharge, Payment and Acquittance: Commanding all and singular our Officers and Ministers of Us, our Heirs and Successors, and enjoining them, upon Pain of our high Displeasure, that they do not presume, at any Time, to attempt any thing to the contrary of the Premises, or that they do in any Sort withstand the same; but that they be at all Times aiding and assisting, as is fitting, unto the said now Lord Baltimore, and his Heirs, and to the Inhabitants and Merchants of Maryland aforesaid, their Servants, Ministers, Factors and Assigns, in the full Use and Fruition of the Benefit of this our Charter."

IV. RESOLVED, That it is the Unanimous Opinion of this House, That the said Charter is Declaratory of the Constitutional Rights and Privileges of the Freemen of this Province.

V. RESOLVED UNANIMOUSLY, That Trials by Juries is the grand Bulwark of LIBERTY, the undoubted Birthright of every ENGLISHMAN, and consequently of every BRITISH SUBJECT in AMERICA; and that the erecting other Jurisdictions for the Trial of Matters of Fact, is UNCONSTITUTIONAL, and renders the Subject insecure in his LIBERTY and PROPERTY.

VI. RESOLVED, That it is the Unanimous Opinion of this House, that it cannot, with any Truth or Propriety, be said, That the Freemen of this Province of Maryland, are Represented in the British Parliament.

VII. RESOLVED UNANIMOUSLY, That his Majesty's liege People of this ancient Province, have always enjoyed the Right of being Governed by Laws, to which they themselves have consented, in the Articles of Taxes, and internal Polity; and that the same hath never been forfeited, or any other Way yielded up, but hath been constantly recognized by the King and People of Great-Britain.

VIII. RESOLVED, That it is the Unanimous Opinion of this House, That the Representatives of the Freemen of this Province, in their Legislative Capacity, together with the other Part of the Legislature, have the sole Right to lay Taxes and Impositions on the Inhabitants of this Province, or their Property and Effects: And that the Laying, Imposing, Levying or Collecting, any Tax on or from the Inhabitants of Maryland, under Colour of any other Authority, is UNCONSTITUTIONAL, and a direct VIOLATION of the RIGHTS of the FREEMEN of this Province.

We are ſorry to hear that a Number of our Readers were diſappointed, in not ſeeing the following Speech in the laſt Gazette; it is therefore now publiſhed for their, as well as others, Satisfaction.

BOSTON, September 30.

The Speech of his Excellency FRANCIS BERNARD, Eſq; Captain General, and Governor in Chief, in and over His Majeſty's Province of the Maſſachuſetts Bay, in New-England, and Vice Admiral of the ſame, to the General Aſſembly of ſaid Province.

Gentlemen of the Council, and Gentlemen of the Houſe of Repreſentatives,

I HAVE called you together at this unuſual Time, in Purſuance of the unanimous Advice of a very full Council, that you may take into Conſideration the preſent State of the Province, and determine what is to be done at this difficult and dangerous Conjuncture. I need not recount to you the Violences which have been committed in this Town, nor the Declarations which have been made, and ſtill ſubſiſt, that the Act of Parliament for granting Stamp-Duties in the Britiſh Colonies, ſhall not be executed within this Province. The ordinary executive Authority of this Government is much too weak to contradict ſuch Declarations, or oppoſe the Force by which they are ſupported: It has therefore been found neceſſary to call the whole legiſlative Power in Aid of the executive Government. From this Time this arduous Buſineſs will be put into your Hands, and it will become a Provincial Concern.

Upon this Occaſion it is my Duty to ſtate to you what will probably be the Conſequences, if you ſhould ſuffer a confirmed Diſobedience of this Act of Parliament to take Place. I am ſenſible how dangerous it is to ſpeak out at this Time, and upon this Subject: But my Station will not allow me to be awed or reſtrained in what I have to ſay to the General Court; not only my Duty to the King, but my Duty to the Province, my Love of it, my Concern for it, oblige me to be plain and explicit upon this Occaſion. And I hope no Advocate for Liberty will violate that eſſential Conſtitutional Right, Freedom of Speech in General Aſſembly.

As I deſire not to dictate to you, and would avoid all Appearance of doing it, I ſhall reſolve what I have to recommend to your Conſideration into meer Queſtions, and avoid Aſſertions of my own in Matters which are doubtful. I ſhall not enter into any Diſquiſition of the Policy of the Act: It has never been a Part of my Buſineſs to form any Judgment of it; and as I have not hitherto had any Opportunity to expreſs my Sentiments of it, I ſhall not do it now. I have only to ſay, that it is an Act of the Parliament of Great-Britain, and as ſuch ought to be obeyed by the Subjects of Great-Britain. And I truſt that the Supremacy of that Parliament over all the Members of their wide and diffuſed Empire never was, and never will, be denied within theſe Walls.

The Right of the Parliament of Great-Britain to make Laws for the American Colonies, however it has been controverted in America, remains indiſputable at Weſtminſter. If it is yet to be made a Queſtion, who ſhall determine it but the Parliament? If the Parliament declares that this Right is inherent in them, are they like to acquieſce in an open and forcible Oppoſition to the Exerciſe of it? Will they not more probably maintain ſuch Right, and ſupport their own Authority? Is it in the Will, or in the Power, or for the Intereſt of this Province, to oppoſe ſuch Authority? If ſuch Oppoſition ſhould be made, may it not bring on a Conteſt, which may prove the moſt detrimental and ruinous Event which could happen to this People?

It is ſaid that the Gentlemen who oppoſed this Act in the Houſe of Commons, did not diſpute the Authority of Parliament to make ſuch a Law, but argued upon the Inexpediency of it at this Time, and the Inability of the Colonies to bear ſuch an Impoſition. Theſe are two diſtinct Queſtions, which may receive different Anſwers. The Power of the Parliament to tax the Colonies may be admitted, and yet the Expediency of exerciſing that Power at ſuch a Time, and in ſuch a Manner, may be denied. But if the Queſtions are blended together, ſo as to admit of but one Anſwer, the Affirmative of the Right of Parliament will conclude for the Expediency of the Act. Conſider therefore, Gentlemen, if you found your Application for Relief upon denying the Parliament's Right to make ſuch a Law, whether you will not take from your Friends and Advocates the Uſe of thoſe Arguments which are moſt like to procure the Relief you deſire?

You, Gentlemen of the Houſe of Repreſentatives, have propoſed a Congreſs of Committees from the Repreſentatives of the ſeveral Colonies, to conſider of a general, united, dutiful, loyal and humble Repreſentation to his Majeſty, and the Parliament. Are the late Proceedings conſiſtent with the dutiful, loyal and humble Repreſentation which you have propoſed? Will the denying the Power and Authority of the King and Parliament, be the proper Means to obtain their Favour? If the Parliament ſhould be diſpoſed to repeal this Act, will they probably do it whilſt there ſubſiſts a forcible Oppoſition to the Execution of it? Is it not more probable that they will require a Submiſſion to their Authority, as a Preliminary to their granting you any Relief? Conſider then, whether the Oppoſition to the Execution of the Act, has not a direct Tendency to defeat the Meaſures you have taken to procure a Repeal of it, if you do not interpoſe to prevent it.

By this Act all Papers which are not duly ſtamped, are to be null and void; and all Perſons who ſhall ſign, engroſs or write any ſuch Papers, will forfeit, for each Fact, Ten Pounds. If therefore Stamps are not to be uſed, all public Offices muſt be ſhut up: For it cannot be expected that any Officer ſhould incur Penalties much beyond all he is worth, for the ſake of doing what will be null and void when it is done. I would therefore deſire you to conſider what Effects the ſtopping two Kinds of Offices only, the Courts of Juſtice, and the Cuſtom Houſes, will have upon the Generality of the People. When the Courts of Juſtice are ſhut up, no one will be able to ſue for a Debt due to him, or an Injury done to him. Muſt not then all Credit and mutual Faith ceaſe of Courſe, and Fraud and Rapine take their Place? Will any one's Perſon or Property be ſafe, when their ſole Protector the Law is diſabled to act? Muſt not the Hand of Violence be then let looſe, and Force of Arms become the only governing Power? Is it eaſy to form an adequate Idea of a State of general Outlawry? and may not the Reality exceed the worſt Idea you can form of it?

If Trade and Navigation ſhall ceaſe, by the ſhutting up the Ports of this Province for want of legal Clearances; are you ſure that all other Ports which can rival theſe will be ſhut up alſo? Can you depend upon recovering your Trade again entire and undiminiſhed, when you ſhall be pleaſed to reſume it? Can the People of this Province ſubſiſt without Navigation for any long Time? what will become of the Seamen who will be put out of Employment? what will become of the Tradeſmen who immediately depend upon Navigation for their daily Bread? Will theſe People endure Want quietly, without troubling their Neighbours? What will become of the numberleſs Families which depend upon Fiſhery? will they be able to turn the Produce of their Year's Work into the Neceſſaries of Life without Navigation? Are there not numberleſs other Families, who do not appear immediately concerned in Trade, and yet ultimately depend upon it? Do you think it poſſible to provide for the infinite Chain of the Dependents upon Trade, who will be brought to Want by the Stopping of it? Is it certain that this Province has a Stock of Proviſions within itſelf ſufficient for all its Inhabitants, without the uſual Imports? If there ſhould be a Sufficiency in general, can it be diſtributed among all the Individuals without great Violence and Confuſion? In ſhort, can this Province bear a Ceſſation of Law and Juſtice, and of Trade and Navigation, at a Time when the Buſineſs of the Year is to be wound up, and the ſevere Seaſon is haſtily approaching? Theſe are ſerious and alarming Queſtions, which deſerve a cool and diſpaſſionate Conſideration.

I would not willingly aggravate the Dangers which are before you; I do not think it very eaſy to do it: This Province ſeems to me to be upon the Brink of a Precipice; and that it depends upon you to prevent its falling. Poſſibly I may fear more for you than you do for yourſelves: But in the Situation you now ſtand, a Sight of your Danger is neceſſary to your Preſervation; and it is my Buſineſs to open it to you. But I do not pretend to enumerate all the Evils which may poſſibly happen; ſeveral, and ſome of no little Importance, will occur to you, though they have been omitted by me. In a Word, Gentlemen, never were your Judgment and Prudence ſo put to a Trial, as they are like to be upon the preſent Occaſion.

I am aware that Endeavours have been, or may be uſed, to leſſen my Credit with you, which I have hitherto always ſtudied to improve to the Advantage of the Province. Violences ſeldom come alone; the ſame Spirit which pulls down Houſes, attacks Reputations. The beſt Men in the Province have been much injured this Way: I myſelf have not eſcaped this Malignity. But I ſhall not lower myſelf ſo as to anſwer ſuch Accuſers: To you I ſhall always owe ſuch Explanations as ſhall be neceſſary to the Improvement of a good Underſtanding between us. However, I will take this Opportunity to declare publickly, that ever ſince I have ſat in this Chair, I have been conſtantly attentive to the true Intereſts of this Province, according to the beſt of my Underſtanding, and have endeavoured to promote them by all Means in my Power. The Welfare of this People is ſtill uppermoſt in my Heart: And I believe no Man feels more for them than I do at this preſent Time.

Gentlemen of the Houſe of Repreſentatives,

I muſt recommend to you to do an Act of Juſtice, which at the ſame Time will reflect Credit upon yourſelves: I mean, to order a Compenſation to be made to the Sufferers by the late Diſturbances. Their Loſſes are too great for them to ſit down with; one of them amounts to a very large Sum. You muſt be ſenſible that it will be expected that theſe Damages be made good: And it will be better for you to do it of your own Accord, before any Requiſition is made to you.---An Eſtimate of theſe Damages is made by a Committee of the Council, purſuant to Order, which will be laid before you.

Gentlemen,

I am ſenſible of the Difficulty of the Part you have to act; it may not be ſufficient for you to be convinced of the Neceſſity of a Submiſſion to the Law for the preſent, unleſs the ſame Conviction ſhall be extended to the People in general. If this ſhould be ſo, I can only deſire you to uſe all Means to make yourſelves well acquainted with the Exigency of the preſent Time; and if you ſhall be perſuaded, that a Diſobedience of the Act is productive of much more Evil than a Submiſſion to it can be, you muſt endeavour to convince your Conſtituents of the Truth of ſuch Perſwaſion. In ſuch Caſe, I ſhall readily grant you a Receſs for a ſufficient Time; and I ſhall be ready to concur with you in all other legal Meaſures to provide for the Safety of the People in the beſt Manner.

Council-Chamber, Sept. 25. FRA. BERNARD.

October 3. Capt. Hulme's Ship came up to Town Yeſterday; all the Stamp Papers and Parchments which came in her, having been landed at the Caſtle.

Laſt Monday a number of Priſoners broke out of the Goal in this Town, and made their Eſcape:---Several of whom had been committed, on Suſpicion of being concerned in the Riot on the 26th of Auguſt.

October 7. We hear from Worceſter, that the Grand Jury for that County, after preſenting their Bills to the Superior Court, addreſſed themſelves by Major Heywood their Foreman, to his Honour the Chief Juſtice, and thanked him for the Charge he had given them, expreſſed their Senſe of the late abuſive Treatment he had received, and promiſed, in Conformity to his Recommendation, to endeavour to preſerve the County from Diſorders and Tumults.

And at Springfield the Grand Jury for the County of Hampſhire preſented to the Chief Juſtice an Addreſs, as follows.

May it pleaſe your Honour,

WE thankfully take Notice of your Honour's wiſe and juſt Obſervation at the Opening of the Court, and beg Leave to let your Honour know, in the Name of all my Brethren, that we have a juſt Abhorrence of all the violent Meaſures and Proceedings lately gone into in this and the neighbouring Governments; and herein we truſt we expreſs the true Senſe of all our Neighbours and Yeomen in the County, and aſſure your Honour, it is our full Determination to do all in our Power to ſupport Government, and maintain the Character you have been pleaſed to give the People of this County. We ſincerely regret the Injury done to private Property, and in particular the great Damage done to your Honour by violent and unreaſonable Perſons, and doubt not the Juſtice of the Government, that the Loſs will in ſome Meaſure be repaired. In the mean time, we beg Leave to expreſs our utmoſt Concern at the preſent Appearance of Things, and the Diſtreſſes coming upon the Country, and hope a kind Providence will once more interpoſe for our Relief.

FELLOWS BILLINGS, Foreman.

We hear from Norwich in Connecticut, that on receiving the News of the Change of the Miniſtry great Rejoicings were made there; a large Bonfire was made, and Fire-works played off on the Common. The Town Houſe and other Buildings were handſomely illuminated. The Gentlemen reſorted to the Town Houſe, where the Healths of Pitt, Temple, Conway, and many other true Patriots, were toaſted, and the whole conducted with Decency and good Order.

A Gentleman in London has wrote, that it was generally reported the Stamp-Act, &c. will be repealed by the new Miniſtry when the Parliament ſits.

NEWPORT, October 7.

We hear by Letters from New-York, that the Boſton Commiſſioners, after their Arrival there, waited upon Lieut. Gov. Colden, and acquainted him with their Buſineſs in New-York. He received them very coldly, and told them, that the Meeting of the Commiſſioners was unconſtitutional, unprecedented, and unlawful, and that he ſhould give them no Kind of Countenance or Encouragement.

We hear from Boſton, that laſt Week the commanding Officer of the King's Ships in that Port was arreſted, and taken into Cuſtody, for detaining Capt. Hulme's Ship, which brought over the Stamped Papers.

By a Gentleman from Boſton, we are informed, that a Ship arrived there laſt Week from London; and that a letter from the Maſſachuſetts Agent adviſed, that the Stamp-Act would probably ſoon be repealed.

NEW-YORK, October 14.

Detroit, Auguſt 20, 1765.

"Colonel George Croghan, with Major Smallman, Capt. Long, Doctor Antoin, and Mon. Mezonville, arrived here a few Days ago from the Illinois: They ſay that every Thing is now quiet and ſettled with the Indians on the Communication from hence to that Place; there are already a great many of them come in here from Miamis, Ouitanon, and ſeveral Hundreds more expected every Day, in Conſequence of ſome Belts and Talks ſent amongſt them laſt Fall by Order of Colonel Bradſtreet. I do not know how they will be pleaſed with their Reception here, the Commandant, Colonel Campbell, not having it in his Power to give them any conſiderable Preſents, unleſs he does it at his own Expence. Pondiac behaved extremely well to Colonel Croghan, and his Party has made ſome very uſeful Diſcoveries, which will make Monſieurs look black, and is expected in here To-morrow, where he will be well received."

Yeſterday Morning arrived here Captain Sarly from Coracoa; and Captain Hinſhaw from Barbados.

By Captain Hinſhaw we learn, that Captain Hanſen in a ſmall Schooner, that was ſome Time ago built here for the uſe of the Cuſtom-Houſe at Penſacola, was lately caſt away on the Metanzas, and that the Veſſel and Cargo were both loſt.

On Monday laſt the Commiſſioners from the ſeveral Colonies, appointed for holding the general Congreſs, being all arrived, aſſembled, and entered upon Buſineſs.---The moſt important that ever came under Conſideration in America.

The following is a Liſt of the Gentlemen aſſembled.

Rhode-Iſland. Metcalf Bowler, and Henry Ward, Eſqrs.

Connecticut. Eliphalet Dyar, Samuel William Johnſon, and David Rowland, Eſqrs.

New-York. John Cruger, Robert R. Livingſton, Philip Livingſton, William Bayard, and Leonard Liſpenard, Eſqrs.

New-Jerſey. Robert Ogden, Hendrick Fiſher, and, Joſeph Borden, Eſqrs.

South-Carolina. Thomas Lynch, Chriſtopher Gadſden, and John Rutlidge, Eſqrs.

Extract of a Letter, dated July 26, 1765, from a Gentleman in London, who was (unjuſtly) by ſome ſuppoſed to be the Author of a vile, infamous, ſenſeleſs pamphlet, lately publiſhed in London, intituled, the Claim of the Colonies to an Exemption from Taxation by the Britiſh Parliament, conſidered, &c.

"If the preſent Sett of Miniſtry continue, we ſhall have ſome Friends to America among them, ſufficient to encourage an Attempt, at leaſt, to get ſome of our Burthens lightened, among which the Stamp Act repealed, in which, you will not take it amiſs, if I am very induſtrious; for I know your preſent Intereſt will not weigh a Moment with you, in Competition with ſo great a Public Good."

Yeſterday the Snow Harriot Packet, Captain Robinſon, ſailed with the Mail for Falmouth.

Bordentown, September 26, 1765.

"On Sunday, the 22d Inſtant, departed this Life, at his Houſe in this Town, JOSEPH BORDEN, Eſq; in the 79th Year of his Age; and the Tueſday following was interred in a plain and decent Manner, in the Preſence of a great Concourſe of People.

"That Gentleman came to this Place in the Year 1719, which at that Time was a mere Wilderneſs, notwithſtanding he commenced a ſmall Trade, which he managed with Prudence and Integrity; but in about four or five Years it pleaſed God to afflict him with a ſevere Fit of the Aſthma, which (although he got the better of at that Time) purſued him, with ſmall Intermiſſions, to the Day of his Death.-------In thoſe Intermiſſions he was remarkably chearful and ſprightly, and ſtill continued his ſmall Trade with Succeſs. About the Year 1735 he planned and laid out this Town, which, although but ſmall, is much larger than could have been expected, when we conſider the Diſadvantages its Patron lay under. About this Time he accepted of a Commiſſion of the Peace, in which Station his greateſt Enemies allowed he behaved with the utmoſt Prudence, and ſtricteſt Juſtice; and as he was eſteemed for his public, ſo he alſo was for his private Worth, he being a kind Neighbour, and a ſincere Friend; a tender Huſband, and an affectionate Parent."

PHILADELPHIA, October 17.

On Monday laſt The GENERAL ASSEMBLY of this Province met here, when JOSEPH FOX, Eſq; was choſen Speaker for the enſuing Year.

By Captain Mulford, from North-Carolina, we are informed, that the Gentleman appointed Diſtributor of Stamps for that Province, had reſigned his Office, on finding how diſagreeable it was to the People, who, in general, have ſhewn as great a Diſlike to that Law, as the Inhabitants of any of the other Colonies have done.---That at Winyaw, in South-Carolina, they have had a very ſevere Gale of Wind, by which a Ship was drove aſhore, and entirely loſt; and the ſmall Veſſels carried out of the Water altogether, and left in the Fields.---That they had very hard Gales of Wind in North-Carolina, but no particular Damage done their Shipping by them.---That on his Paſſage he ſpoke with a Sloop from the Bay of Honduras for New-York, out 50 Days, and had been in a Gale of Wind, by which her Sails were much ſhattered.---And that he alſo ſpoke with Captain Harris, in a Bermudian Sloop, from St. Chriſtophers, and with Captain Smith, from the Grenades, both for Ocracock, in North-Carolina; the firſt out above Sixty Days, and the latter above Fifty.

Captain Wainwright, from the Grenades, adviſes, that the Shipping there did not ſuffer by the Gales of Wind that happened the End of July, and Beginning of Auguſt.---On his Paſſage to the Grenades, he had very ſtormy Weather, and, near St. Chriſtophers, ſaw a Wreck (a Topſail Veſſel) full of Water, ſtanding upright, but it blew ſo hard, he could not get on board; he alſo met a great deal of Lumber, &c. floating along.-----On the firſt Inſtant, in Lat. 30: 30. he ſpoke with a Brig from Barbados for Virginia.---And the next Day, in Lat. 32: 26. he alſo ſpoke with a ſmall Schooner, from Virginia for Antigua, but cannot tell the Maſters Names.

Captain Green, from the Bay of Honduras, on the 23d ult. off Cape Anthony, ſpoke Captain Wilſon, in a Sloop from Jamaica for South-Carolina; and on the 27th ſaw a Ship and Snow at the Entrance of the Gulph, one of which he took to be the Old Grace, belonging to New-York; they were bound through the Gulph.

Captain Kelly, in a Sloop from the Bay for this Port, was caſt away on the Fourth of September, on the Northern Triangles, in a Gale of Wind; the Veſſel and Cargoe entirely loſt; but the People all got aſhore on the Quarter-deck.----The Captain, and one of the Hands, came home with Captain Green.

Captain Green informs, that ſome of the Rebel Negroes had come in, and that it was thought the others would follow their Example; but if not, there were People enough gone out to compel them; they had not done any further Miſchief than what has been already mentioned.---He left in the Bay the Captains Queys, Gray, Thoburn, Gibbons and Hord, belonging to London.---Richards, Shoals, Jauncey and Fagg, of New-York; and Captain Smith, from Madeira ---Sailed from the Bay for New-York the 17th of laſt Month, the Captains Quill and Sheldon.

Captain Judkin, from Jamaica, off the Capes of Virginia, ſaw a Ship in Diſtreſs, but does not know who ſhe was, nor from whence ſhe came.

Captain Dill, from Barbados, on the 27th ult. in Lat. 27: 26, Long. 65: 17, ſpoke a Brig bound to Virginia from Barbados, Captain Tilledge; and a Sloop from Antigua for Maryland.

Captain Yorke, from Jamaica, on the 4th Inſtant, in Lat. 30, ſpoke Captain Campbell, in a Ship from Jamaica for Virginia, out 32 Days.---The 7th, in Lat. 32: 28 with a Ship from South-Carolina to Jamaica.---And on the 8th, in Lat. 33: 52 with the Brig Francis, Captain Brownlow, from Turks-Iſland for this Port, who ſent his Boat on board him for ſome Proviſions, which he ſpared him.---Captain Brownlow informed Captain Yorke, that a Sloop, Captain Ruſs, from North-Carolina, was loſt at Turks-Iſland, the latter End of Auguſt, her Rigging and Cargoe ſaved.

We hear an Expreſs from the General Aſſembly of Georgia, has paſſed through this City for New York, with Inſtructions from them, relating to the General Congreſs now holding there.

Arrived from this Port. Captain Ritchie, at Jamaica; Captain Fearis, at the Grenades; and the Captains Callender, Mafhet, Adams, Eggar and Whitlock, at Barbados.

Last Thurſday a labouring Man attempted to go down into a Well in this City (which had been opened the Day before) in order to clean it; but in going down, finding it too damp, he called out to be hoiſted up again, and before he reached the Top the Vapour had ſo great an Effect on him, that he fell out of the Bucket, and was ſuffocated. Another Man immediately attempted to go to his Relief, but had not got half Way down before he called to be hoiſted up, and (being faſtened in the Bucket) was drawn out Speechleſs, but being properly taken Care of, he ſoon recovered.

Pennſylvania, October 14, 1765.

WHEREAS by an Act of the General Aſſembly of this Province, paſſed in the Third Year of his preſent Majeſty's Reign, intituled, "An Act for granting to his Majeſty the "Sum of Fifty-five Thouſand Pounds, and for ſtriking the ſame "in Bills of Credit, &c." it is enacted, "That the Commiſſioners of the ſeveral Counties ſhall (under the Penalty of Fifty Pounds) at the Expence and Coſts of the reſpective Counties, provide printed Liſts of rateable Property, in the Manner and Form herein after ſpecified, and deliver them to the Aſſeſſors of every Townſhip, Borough, Ward and Place, within their County, together with the Precepts herein after directed to be iſſued by them to the ſaid Aſſeſſors; one of which ſaid printed Liſts the ſaid Aſſeſſor ſhall, at the time of making the Enquiry aforeſaid, deliver to every Perſon reſiding within his Townſhip, and by this Act directed to be aſſeſſed, or leave the ſame at his or her Houſe during the Space of 15 Days; and that every Perſon within that Time ſhall fill up or inſert, in the ſeveral reſpective Columns, or procure the ſame to be done, with ſuch and ſo much of the ſeveral Kinds of Property in the ſaid Liſt mentioned, as he or ſhe ſhall own and poſſeſs within this Province, and ſign the ſaid Liſt with his or her own Hand, and re-deliver the ſame to the Aſſeſſor, when demanded.---And if any Owner of Property aforeſaid, ſhall neglect or refuſe to fill up and ſign ſuch Liſt as aforeſaid, he or ſhe ſhall forfeit and pay double the Amount of his or her whole Rate; and if any Perſon ſhall not give a juſt and true Account and Report of the ſeveral Kinds of Property of which he or ſhe is poſſeſſed, mentioned and ſpecified in the Liſt aforeſaid, every ſuch Perſon ſhall forfeit and pay Fourfold, upon the Rate at which the Property ſo concealed ought to be rated, in Purſuance of this Act.--- And the Aſſeſſors of the ſeveral Townſhips, Boroughs, Wards, and the Diſtrict of Southwark, ſhall, in like Manner as aforeſaid, deliver to all Agents, Receivers, Attornies in Fact, or others, in any Manner intruſted with the Property of Non-reſidents, liable to be rated by this Act, one of the printed Liſts of rateable Property aforeſaid, or leave the ſame at their Places of Abode reſpectively, during the Space of 15 Days, who ſhall within that Time fill up the ſame with all ſuch rateable Property as ſhall belong to their Conſtituents within this Province, with the Receipt or Management whereof they are entruſted, under the Penalty of forfeiting double the Value of the Rate or Tax of ſuch Property; and ſhall, in like Manner as aforeſaid, pay Fourfold for all ſuch of their Conſtituents Property, rateable as aforeſaid, which they ſhall wittingly conceal."

The above Extracts are thus made public for the Information of the Inhabitants; and it is preſumed that all Perſons who fill up the printed Liſts above mentioned, will be very careful to note down the different Species of Property, with a diſtinct and particular Account of all Rents they poſſeſs, and from whom they are received, in as clear and plain a Manner as poſſible, that no unneceſſary Delay may be given to the Aſſeſſors, which can only be prevented by the Care and Exactneſs of thoſe Perſons who ſign the Liſts of Property aforeſaid.

Sept. 18. Many of the merchants in London trading to America, are not without hopes of obtaining some mitigation of the late laws so much complained of, particularly in the northern colonies. They flatter themselves that the new ministry will endeavour to conciliate the good opinion of his Majesty's American subjects by a measure of that sort.

SAVANNAH (in GEORGIA) September 5.

Extract of a letter from Pensacola, dated August 10.

"The 35th regiment is embarked for England, and now consists of only 100 men fit to do duty, the remaining few being invalids, and only 3 officers, and about 20 men, remain of those who came to America in 1755. Their venerable colours, honourably ragged, are so full of shot holes, as scarce to be able to hang on the staff. The 31st regiment, which relieved them, marched in here the 25th past, full 500 men, in health and spirits, and now not above half are able to do duty. Six of the officers brought their ladies with them, 4 of whom are already dead. In short, this place is a mere hospital, and I am afraid in a very little time the 31st regiment will not out-number their predecessors. This mortality among the troops is scarce to be wondered at, when we consider, that, from a healthy, temperate, and native air, with every conveniency of life, they come in the most sickly season to the worst of climates, and the most barren spot on earth, where they have neither accommodations nor vegetables of any kind, and fresh provisions not always to be had. The poor fellows have indeed reason to be dispirited at the wretchedness of the place, which they are to the highest degree. Poor Mr. Giles Philips, who lately arrived with his lady, in order to make a considerable settlement here, was this day buried; they were to have left this dreary place in a very little time, having ordered a vessel to carry them to Carolina."

September 26. Friday last put in here in distress, having all her sails tore, and lost her rudder, the schooner Polly, John Johnson master, from Jamaica, bound to Philadelphia.

And on Tuesday put into Tybee, leaky, a ship from the Bay of Honduras, bound to London: Also a snow from Gambia, Dean, master, bound to Charlestown, having on board about 150 slaves. Capt. Dean lost two anchors off Charlestown bar on Saturday, and upwards of 30 of his cargo of slaves have died during 16 days he has been on the coast.

ANNAPOLIS, October 3.

The GOVERNOR'S ANSWER to the Address of the House of DELEGATES.

Gentlemen of the Lower House of Assembly,

AS I perceive by your Address, which hath been just presented to me, that you are desirous to have a short Recess of a few Weeks, I shall comply with your Request; but, it being probable that the Stamped Paper, destined for this Province, in Consequence of the Act of Parliament that was made last Session by the Legislature of Great-Britain, will arrive here before I shall have an Opportunity of advising with you again, and that the Master of the Vessel who may have Charge thereof, will desire me to give Orders for its being landed, and lodged in a Place of Security, especially as the Person appointed to distribute the Stamps here, has, I understand, left the Province; I should be glad to know how you would advise me to act on such Occasion.

Sept. 28. HOR. SHARPE.

To his Excellency HORATIO SHARPE, Esq; Governor and Commander in Chief in and over the Province of Maryland,

The humble ADDRESS of the HOUSE of DELEGATES.

May it please your Excellency,

IN Answer to your Message just now received, relative to the Stamped Paper, we should think ourselves extremely happy, were we in Circumstances to advise your Excellency on so new a Subject: But it being a Matter of Importance, and such as we do not think ourselves at Liberty to advise in, without the Instructions of our Constituents, which we cannot now obtain, we hope your Excellency will think us excuseable for declining to offer you any Advice upon the Occasion.

We return your Excellency Thanks for your Promise of a short Recess, at this Time, agreeable to our Request.

Sept. 28. ROBERT LLOYD, Speaker.

October 10. Friday last Edward Rusgking, and John Hubbert, the one for the Murder of his Fellow-Servant, the other his Master, were executed here, pursuant to their Sentence at the Provincial Court, and behaved very penitently.

We are informed from Baltimore County, that on the 27th of August past, Anne Carlin, the Wife of Daniel Carlin, of Bush River, gathered, as she thought, some Mushrooms, which she dressed, and eat, as she had commonly done; but at Night was taken ill with a Vomiting and Purging, and died on the third Day.

In the same County, some Years since, an old Man, and two young Women, eat of Mushrooms, as they thought; and the old Man having Occasion immediately to set out on a Journey, was taken ill at Night at the House where he put up; the People gave him warm Milk from the Cow, of which he drank plentifully, and recovered. The two young Women were taken ill about the same time, and both died.

BOSTON, October 10.

To JACOB FOWLE, and WILLIAM BOURN, Esquires, the present Representatives of the Town of MARBLEHEAD.

GENTLEMEN,

WE the Freeholders and other Inhabitants of the said Town of Marblehead, in Town-Meeting assembled, the Twenty fourth Day of September, A. D. 1765, professing the greatest Loyalty to our most gracious Sovereign, and our sincere Regard and profound Reverence for the British Parliament, as the most powerful and respectable Body of Men on Earth, yet, at the same time, being deeply sensible of the Difficulties and Distresses, to which that august Assembly's late Exertion of their Power, in and by the Stamp-Act, must necessarily expose us, think it proper, in the present critical Conjuncture of Affairs, to give you the following INSTRUCTIONS, viz.

THAT you promote, and readily join in, such dutiful Remonstrances and humble Petitions to the King and Parliament, and other decent Measures, as may have a Tendency to obtain a Repeal of the Stamp-Act, or Alleviation of the heavy Burdens thereby imposed on the American British Colonies. And forasmuch as great Tumults, tending to the Subversion of Government, and the great Reproach of the Inhabitants of this Province, have lately happened, and several Outrages committed by some evil-minded People in the Capital Town thereof----You are, therefore, directed to bear your Testimony against, and do all in your Power to suppress and prevent, all riotous Assemblies, and unlawful Acts of Violence upon the Persons or Substance of any of His Majesty's Subjects.

AND that you do not give your Assent to any Act of Assembly that shall imply the Willingness of your Constituents, to submit to any internal Taxes, that are imposed otherwise than by the Great and General Court of this Province, according to the Constitution of this Government.

OTHER Matters we leave to your Prudence, trusting you will act, as we apprehend you have ever done, consistent with Honour and Justice to your Constituents, and with due Regard to the publick Welfare. Attest. BENJA. HODEN, Town-Clerk.

We hear from Braintree, that the Freeholders, and other Inhabitants of that Town, legally assembled on Tuesday, the Twenty-fourth of September last, unanimously voted, that Instructions should be given their Representative, for his Conduct in General Assembly, on this great Occasion ---The Substance of these Instructions is as follows.

To EBENEZER THAYER, Esq.

SIR,

"IN all the Calamities which have ever befallen this Country, we have never felt so great a Concern, or such alarming Apprehensions, as on this Occasion.---Such is our Loyalty to the King, our Veneration for both Houses of Parliament, and our Affection for all our Fellow Subjects in Britain, that Measures, which discover any Unkindness in that Country towards Us, are the more sensibly and intimately felt. And we can no longer forbear complaining, that many of the Measures of the late Ministry, and some of the late Acts of Parliament, have a Tendency, in our Apprehension, to divest us of our most essential Rights and Liberties.----We shall confine ourselves, however, chiefly to the Act of Parliament, commonly called the Stamp-Act, by which a very burthensome, and, in our Opinion, unconstitutional Tax, is to be laid upon us all; and we subjected to numerous and enormous Penalties, to be prosecuted, sued for, and recovered, at the Option of an Informer, in a Court of Admiralty, without a Jury.

"We have called this a burthensome Tax, because the Duties are so numerous and so high, and the Embarrassments to Business in this infant, sparsely settled Country, so great, that it would be totally impossible for the People to subsist under it, if we had no Controversy at all about the Right and Authority of imposing it. Considering the present Scarcity of Money, we have Reason to think, the Execution of that Act for a short Space of Time would drain the Country of its Cash, strip Multitudes of all their Property, and reduce them to absolute Beggary. And what the Consequence would be to the Peace of the Province, from so sudden a Shock, and such a convulsive Change, in the whole Course of our Business and Subsistence, we tremble to consider.---We further apprehend this Tax to be unconstitutional: We have always understood it to be a grand and fundamental Principle of the Constitution, that no Freeman should be subjected to any Tax, to which he has not given his own Consent, in Person, or by Proxy. And the Maxims of the Law, as we have constantly received them, are to the same Effect, that no Freeman can be separated from his Property, but by his own Act or Fault---We take it clearly, therefore, to be inconsistent with the Spirit of the Common Law, and of the essential fundamental Principles of the British Constitution, that we should be subjected to any Tax, imposed by the British Parliament, because we are not represented in that Assembly in any Sense, unless it be by a Fiction of Law, as insensible in Theory, as it would be injurious in Practice, if such a Taxation should be grounded on it.---

"But the most grevious Innovation of all, is the alarming Extension of the Power of Courts of Admiralty. In these Courts, one Judge presides alone! No Juries have any Concern there!---The Law, and the Fact, are both to be decided by the same single Judge, whose Commission is only during Pleasure, and with whom, as we are told, the most mischievous of all Customs has become established, that of taking Commissions on all Condemnations, so that he is under a pecuniary Temptation always against the Subject. Now, if the Wisdom of the Mother Country has thought the Independency of the Judges, so essential to an impartial Administration of Justice, as to render them independent of every Power on Earth, independent of the King, the Lords, the Commons, the People, nay independent in Hope and Expectation, of the Heir apparent, by continuing their Commissions after a Demise of the Crown; What Justice and Impartiality are we, at 3000 Miles Distance from the Fountain, to expect from such a Judge of Admiralty? We have all along thought the Acts of Trade in this Respect a Grievance: But the Stamp-Act has opened a vast Number of Sources of new Crimes, which may be committed by any Man, and cannot but be committed by Multitudes, and prodigious Penalties are annexed, and all these are to be tried by such a Judge of such a Court!---What can be wanting, after this, but a weak or wicked Man for a Judge, to render Us the most sordid and forlorn of Slaves? We mean the Slaves of a Slave of the Servants of a Minister of State:---We cannot help asserting, therefore, that this Part of the Act will make an essential Change in the Constitution of Juries, and is directly repugnant to the Great Charter itself. For by that Charter, "No Amerciament shall be assessed, but by the Oath of honest and lawful Men of the Vicinage."---And "No Freeman shall be taken, or imprisoned, or disseized of his Freehold, or Liberties, or free Customs, nor passed upon, nor condemned, but by lawful Judgment of his Peers, or by the Law of the Land."---So that this Act will "make such a Distinction, and create such a Difference between" the Subjects in Great-Britain and those in America, as we could not have expected from the Guardians of Liberty in "Both."---

"As these, SIR, are our Sentiments of that Act, We, the Freeholders and other Inhabitants, legally assembled for this Purpose, must enjoin it upon you, to comply with no Measures or Proposals for countenancing the same, or assisting in the Execution of it, but by all lawful Means, consistent with our Allegiance to the King, and Relation to Great-Britain, to oppose the Execution of it, till we can hear the Success of the Cries and Petitions of America for Relief.

"We further recommend the most clear and explicit Assertion and Vindication of our Rights and Liberties, to be entered on the Public Records; that the World may know, in the present and all future Generations, that we have a clear Knowledge, and a just Sense of them, and, with Submission to Divine Providence, that we never can be Slaves.

"Nor can we think it adviseable to agree to any Steps for the Protection of stamped Papers, or Stamp-Officers.----Good and wholesome Laws we have already, for the Preservation of the Peace: And we apprehend there is no further Danger of Tumult and Disorder- -to which we have a well-grounded Aversion; and that any extraordinary and expensive Exertions, would tend to exasperate the People, and endanger the public Tranquility, rather than the contrary.---Indeed we cannot too often inculcate upon you our Desires, that all extraordinary Grants and expensive Measures may, upon all Occasions, as much as possible, be avoided.---The Public Money, of this Country, is the Toil and Labour of the People, who are under many uncommon Difficulties and Distresses, at this Time; so that all reasonable Frugality ought to be observed. And we would recommend particularly, the strictest Care, and the utmost Firmness, to prevent all unconstitutional Draughts upon the Public Treasury."

Messieurs Drapers, Please to insert the following Extract of a Letter from a Gentleman in London, to his Friend in Boston, received by the last Ship; by which it appears that the mutual Dependance, Connection and Harmony of Great-Britain and her Colonies, is the real Sense of the thinking Part of the Nation, and is at this Time a Matter of the greatest Consequence.

"WE now congratulate you on a total Change of the Ministers of State; and now is your Time to represent your Grievances, in a moving Manner, and I flatter myself you will be attended unto:---Keep clear of all Reflections, and be particular in your Facts; let them be well supported, and Consequences justly represented, in a striking Light, and the mutual Advantage that will arise to Great-Britain and her Colonies, by being relieved from your present Burthens."---

We hear that Numbers of young Persons in the Country are joining in Wedlock earlier than intended, supposing that after the 1st of next Month, it would be difficult to have the Ceremony performed without paying dearly for stamping:---No less than 22 Couple were published on Sunday last at Marblehead, intending Marriage on the same Account.

October 14. By a Computation made, it appears that if the Stamp-Act should take Place, the Retailers and Tavern-keepers must pay about £20,000 Old Tenor every Year for renewing Licences; and that the whole Charge for Stamp Papers to this Province will amount in one Year to above £40,000, which is more than double what the common Charges of Government ought to be in Time of Peace, and is perhaps a larger Sum than the current Cash of the Country---what then must become of the Trade? But notwithstanding this, it is said a Gentleman of Distinction, who has lately made the Tower of S-l-m and M---ble---d, has been pleased to give it out, that there are some Persons in those Towns who would willingly make Use of Stamp Papers, if they could in any Ways obtain them---the true Motives for so extraordinary a Conduct, are doubtless well known to the Gentleman, who it should seem has been let into this Secret.

NEWPORT, October 14.

We hear the Stamped Paper for this Colony, lately lodged in Castle William, is to be conveyed to this Port by the Viper.

NEW-YORK, October 17.

We hear that the Design of establishing in this City a Market, to commence on Wednesday the 23d Inst. for all Kinds of Home Manufactures, meets with universal Approbation; as many were at a Loss to know how to come at what they wanted in these Articles; and it is expected that it will be equally convenient for those who have such Goods on Hand, and that quick Sale, and ready Money, will induce them and many others to increase their Diligence, and bring their Goods to Market.

On Tuesday last arrived the Sloop William, Captain Rivers, in 36 Days from Pensacola; by whom we learn, that ten Sail of Transports, with Troops (to relieve those on that Station, who are going Home) were arrived there, and that there has been a great Mortality amongst them, ten or twelve dying of a Day, amongst which was that gallant and worthy Officer, Brigadier General BOUQUET, whose eminent Services, and amiable Character, demand the Tears of his Country and Acquaintance:---He arrived the 23d of August, and died the 2d Day of September. Out of six Officers Ladies, who accompanied them, five were dead, and the other very ill, and not likely to recover. The Place, we are told, is barren and uncomfortable, and as no Trade has been permitted with the Spaniards, 400,000 Dollars having been turned away, the Design and Use of it is not very discernible, unless it be for a Burying Ground.

The Spaniards were daily expected at New Orleans, where they have already appointed a Governor.

The Schooner -------, Captain Turke, from Pensacola for this Port, and supposed to be lost, is put into South-Carolina, being in Want of Provision, Water, &c.

October 21. Last Week Captain Lash arrived here from St. Thomas's. In Lat. 34, the 3d and 4th Instant, he spoke with the following Vessels; but as it blew very fresh at the Time, he could not learn the Captains Names of either of them, viz. A Brig from Santa Croix for this Port, a Sloop from Philadelphia for Bermuda; and a Brig from North-Carolina for Bristol; all well on board each Vessel.

Extract of a Letter, dated Cape Nichola, on Hispaniola, September 10, 1765.

---"A Spanish Schooner is just arrived from Baracoa, on the Island of Cuba, with the Remnant of the Crew of the French Frigate La Bayanise, mounting 32 Guns. The History of this Affair is this: The Inhabitants of Old Cape St. Louis refused to appear under Arms as Militia, having paid 20 l. per Head to be exempted. This Frigate was sent down (in company with another) having on board this Vessel 165 Soldiers from the Regiment of Querney (and as many on board the other) in order to compel them to it. But, notwithstanding, they were incapable of doing it, and the Result was, they were ordered back: And on the Platform they met with a Gale of Wind; not being expert enough to wear their Ship, they put afore the Wind, and being flustered, they did not know where they were: And about one in the Morning they run ashore upon the Point called La Gallette, about 8 or 9 Leagues to Leeward of Cape-Maize, where 280 of them perished; only 25 Soldiers and 45 Seamen were saved, and the Ship entirely lost."

PHILADELPHIA, October 24.

The Ship Bristol, Captain Bailey, is arrived here from Bristol, but brings no later Advices than what we have had already.

The Philadelphia Packet, Captain Budden, from London, is in the River.

Extract of a Letter from Bristol, August 15.

"The present Situation of the Colonies alarms every Person who has any Connection with them; and if our new Ministry do not repeal the Act made by the old One, we shall all be ruined.----The Avenues of Trade are all shut up.----We have no Remittances, and are at our Wits End for Want of Money to fulfil our Engagements with our Tradesmen.---How this will end, Time only can evince; however we dread the Consequences."

On Thursday last the GENERAL ASSEMBLY of this Province adjourned till the Sixth of January next.

We have the Pleasure of informing our Readers, that the important Business of the GENERAL CONGRESS at New-York is in great Forwardness, and, it is thought, will be finished this Week; in the transacting of which, we are assured, there has been the most perfect Harmony and Unanimity.

Yesterday, by Direction of the Assembly, came on the Election of a Burgess for this City.

In the New-York Mercury there is the following Character of the late brave General BOUQUET.

"This Gentleman served his Majesty all the last War with great Distinction. He was promoted from conscious Merit, not only unenvied, but even with the Approbation and good Wishes of all who knew him; his superior Judgment and Knowledge of Military Matters; his experienced Abilities, known Humanity, remarkable Politeness, and constant Attention to the CIVIL RIGHTS of his Majesty's Subjects, rendered him an HONOUR to his Country, and a LOSS to Mankind."

Friday last Captain Mason arrived here in 8 Days from South-Carolina; three Days after he left Charles-Town he spoke a Sloop from St. Christophers, bound in there, who had been out 28 Days, and had met with a Gale of Wind, in which she lost her Mainsail; he could not learn the Master's Name.

Captain Clark, from Barbados, a little to the Northward of Bermuda, spoke with Captain Johnson, in a Brig, from Surrinam for Boston.

Friday last the Ship Sally, Captain Patterson, came up to Town; he left Cape Charles the 7th Instant, bound from Maryland for Lisbon, but proving very leaky, on the 9th he bore away for our Capes; on the 12th, in a very hard Gale of Wind at W. N. W. shipped several Seas, and was obliged to clear his Decks of the Lumber, being scarce able to keep her free.

Captain Stevens, from Nevis, on our Coast spoke with Captain Fell, from New Orleans, bound to New-York.

Captain Erwin, from Antigua, on his Passage, spoke a Sloop, bound to Boston, and another to Rhode-Island, both from St. Eustatia; also with a Brig from Barbados, bound to New-Haven, but could not learn the Masters Names.-------He met with very hard Gales of Wind.

Captain Johnson, also from Antigua, two Weeks ago, about 100 Leagues from our Capes, spoke a Sloop, from New-London for Antigua, out three Days.

Captain Nuttle, from Lisbon, on the 10th of September, in Lat. 33:1, Long. 23:49, spoke the Ship Brotherly Love, Captain Bell, belonging to London, from the Isle of May for Teneriffe, out seven Weeks. On the 6th Instant, in Lat. 37:26, Long. 53:48, spoke a Ship from Cape-Fear for London. The 8th, in Lat. 36:53, Long. 61:18, spoke with Captain Cuzzins, from Virginia for London, out ten Days. And on the 14th he spoke a Sloop, from Virginia for Nevis, in Lat. 35:25, Long. 66, out seven Days, all well.

On Saturday last Henry Hulbert was executed here, pursuant to his Sentence, for the Murder of Jacob Woolman.

Arrived from this Port, Captains Ashmore and Tolbert, at

Lisbon; Captain Simpson, at Antigua; and Captain Harden, at Montserrat.

From Maryland, Captain Robeson, at Barbados; and Captain Eggar, at Lisbon.

A LETTER from a BLACKSMITH, to the MINISTERS and ELDERS of the Church of Scotland. In which the Manner of public Worship in that Church is considered; its Inconveniences and Defects pointed out; and Methods for removing them humbly proposed.-----Be not rash with thy Mouth, and let not thine Heart be hasty to utter any thing before God; for God is in Heaven, and thou upon Earth; therefore let thy Words be few. ECCL. v. 2.

I will pray with the Spirit, and I will pray with the Understanding also. 1 COR. xiv. 15.

CHOICE pickled Lobsters in small Kegs, fresh imported, and done in the best Manner, to be sold by BENJAMIN JACKSON, at his Mustard and Chocolate Store, next Door to the London Coffee-house, in Market-street, Philadelphia, who manufactures the genuine Flour of Mustard, of all Degrees of Fineness, in such a Manner that he will warrant to exceed any from England or elsewhere, and keep good even in the very hottest Climates. He sells it in proper Glass Bottles, or any other Package, that may be most agreeable to the Buyer, and at very reasonable Rates; particularly to those who buy Quantities for Exportation. Said Jackson also manufactures Chocolate in the best Manner, which he likewise sells at the most reasonable Rates; and good Vinegar, very cheap by the Hogshead or Barrel, having a large Quantity on Hand. He also sells Vinegar by Retail, as likewise Flour of Mustard and Chocolate, as usual, raw West-India Coffee, Ditto roasted, or roasted and ground, done in as great Perfection as at the Roasting Office in London. And Rye done in Imitation of Coffee, in the best Manner; Oat Grots, Oatmeal, English split Pease, race and ground Ginger, Spice in general, Teas, Sugars, Raisins, Pruans, Currants, whole and ground Rice, &c. Also choice Sallad Oil, and Pickles, of many Sorts, both foreign and home made, &c. &c.

N. B. As I find it has been pretty generally understood, that I have constantly lived in Lætitia-Court, where my original Mustard and Chocolate Store was, and where mine and Company's has been kept ever since I took a Copartner, which was in the Year 1759, at which Time I removed to Company's Mills, and not thinking of the Consequence, I left a large Sign Board over our Store Door in Lætitia-Court, which I had fixed for myself, when I first went to live there, long before Partnership commenced, with the following Words wrote thereon in very large Letters, viz. BENJAMIN JACKSON, MUSTARD and CHOCOLATE-MAKER FROM LONDON; which Board I find has been one great Occasion of the Mistake. This is therefore to undeceive the Public, and assure them, I have not lived in Lætitia-Court since the Fall of the Year 1759, nor given my Attendance there; but my late Partner, Captain Jonathan Crathorne, did, and still lives there. That our Copartnership is now dissolved, and that I myself live next Door to the London Coffee-house as aforesaid, where all those who may please to send their Orders, either by Letter, or otherwise, may depend on having them faithfully and expeditiously compleated, and the Favours gratefully and thankfully acknowledged, by their obliged Friend,

BENJAMIN JACKSON.

We gratefully acknowledge the obliging Disposition already shewn by the Public to encourage our Undertaking of the Rum Distillery, and venture to hope for the further Continuance of their Favour, in carrying on a Scheme of such apparent Utility to the Trade of the Province; more especially at a Juncture when the Necessity, as well as Advantage, of promoting our own Manufactures, is become so very apparent. It is with singular Satisfaction we find our Hopes so fully answered, by the general Approbation given our Rum for its superior Quality; and we are determined to support its Character, should our Profits be ever so small. Some Obstacles that hitherto prevented our distilling so fast as expected being removed, the Business of the Distillery is now carried on by us in the most extensive Manner, by which Means, having a constant Stock of Rum on Hand, our Friends, either in this or the neighbouring Provinces, may depend on being always well supplied. Importers of Melasses may depend on constant Purchases of the same, for which we shall always allow the Philadelphia Prices, or be willing to contract with Gentlemen inclined to import Melasses, before their Vessels go out.

A DISCOURSE upon the Inſtitution of MEDICAL SCHOOLS in AMERICA; delivered at a public Anniverſay Commencement, held in the College of Philadelphia, May 30 and 31, 1765. With a PREFACE, containing, amongſt other Things, the AUTHOR'S APOLOGY for attempting to introduce the regular Mode of practiſing PHYSIC in Philadelphia.

By JOHN MORGAN, M. D. Fellow of the Royal Society at London; Correſpondent of the Royal Academy of Surgery at Paris; Member of the Arcadian Belles Lettres Society at Rome; Licentiate of the Royal Colleges of Phyſicians in London and in Edinburgh; and Profeſſor of the Theory and Practice of Medicine in the College of Philadelphia.

AS the Neceſſity of cultivating Medical Knowledge in America is allowed by all, it is with Pleaſure we inform the Public, that Courſes of Lectures, on two of the moſt important Branches of that uſeful Science, viz. ANATOMY, and MATERIA MEDICA, will be delivered this Winter in Philadelphia. We have great Reaſon therefore to hope, that Gentlemen of the Faculty will encourage the Deſign, by recommending it to their Pupils; that Pupils themſelves will be glad of ſuch an Opportunity of Improvement; and that the Public will think it an Object worthy their Attention and Patronage.---In order to render theſe Courſes the more extenſively uſeful, we intend to introduce into them, as much of the Theory and Practice of Phyſic, of Pharmacy, Chemiſtry and Surgery, as can conveniently be admitted. From all this, together with an Attendance on the Practice of the Phyſicians and Surgeons of the Pennſylvania Hoſpital, the Students will be able to proſecute their Studies with ſuch Advantage, as will qualify them to practiſe hereafter with more Satisfaction to themſelves, and Benefit to the Community. The particular Advertiſements inſerted below, ſpecify the Time when theſe Lectures are to commence, and contain the various Subjects to be treated of in each Courſe, and the Terms on which Pupils are to be admitted.

WILLIAM SHIPPEN, jun. M. D. Profeſſor of Anatomy and Surgery in the College of Philadelphia.

JOHN MORGAN, M. D. F. R. S. And Profeſſor of Medicine in the College of Philadelphia.

DOCTOR SHIPPEN's Courſe of ANATOMICAL LECTURES will begin on Thurſday, the 14th of November, 1765; it will conſiſt of about 60 Lectures, in which the Situation, Figure and Structure of all the Parts of the human Body, will be demonſtrated on the freſh Subject; their reſpective Uſes explained, and their Diſeaſes, with the Indications, and Method of Cure, briefly treated of; all the neceſſary Operations in Surgery will be performed, a Courſe of Bandages given; and the whole concluded with a few plain and general Directions in the Practice of Midwifery. Each Perſon to pay Six Piſtoles.

Thoſe who incline to attend the Pennſylvania Hoſpital, and have the Benefit of the curious Anatomical Plates and Caſts there, to pay Six Piſtoles to that uſeful Charity.

*** It has given Dr. Shippen much Pain to hear, that notwithſtanding all the Caution and Care he has taken, to preſerve the utmoſt Decency in opening and diſſecting dead Bodies, which he has perſevered in, chiefly from the Motive of being uſeful to Mankind, ſome evil-minded Perſons, either wantonly or maliciouſly, have reported to his Diſadvantage, that he has taken up ſome Perſons who were buried in the Church Burying Ground, which has diſtreſſed the Minds of ſome of his worthy Fellow Citizens.---The Doctor, with much Pleaſure, improves this Opportunity to declare, that the Report is abſolutely falſe; and to aſſure them, that the Bodies he diſſected, were either of Perſons who had wilfully murdered themſelves, or were publickly executed, except now and then one from the Potters Field, whoſe Death was owing to ſome particular Diſeaſe; and that he never had one Body from the Church, or any other private Burial Place.

A COURSE of LECTURES, on the MATERIA MEDICA, By JOHN MORGAN, M. D. F. R. S. and Profeſſor of Medicine in the College of Philadelphia. Price Four Piſtoles.

THIS Courſe will commence on Monday, the 18th Day of November, and be given three times a Week, at the College, viz. Mondays, Wedneſdays and Fridays, at Three o'Clock in the Afternoon, till finiſhed, which will laſt between three and four Months.

To render theſe Lectures as inſtructive as poſſible to Students of Phyſic, the Doctor propoſes, in the Courſe of them, to give ſome uſeful Obſervations on Medicine in general, and the proper Manner of conducting the Study of Phyſic. The Authors to be read, in the Materia Medica, will be pointed out. The various Subſtances made uſe of in Medicine, will be reduced under Claſſes ſuited to the principal Indications in the Cure of Diſeaſes. Similar Virtues in different Plants, and their comparative Powers, will be treated of, and an Enquiry made into the different Methods which have been uſed in diſcovering the Qualities of Medicines; the Virtues of the moſt efficacious will be particularly inſiſted upon; the Manner of preparing and combining them will be ſhewn by ſome inſtructive Leſſons upon pharmaceutic Chemiſtry: This will open to Students a general Idea both of Chemiſtry and Pharmacy. To prepare them more effectually for underſtanding the Art of preſcribing with Elegance and Propriety, if Time allows, it is propoſed to include in this Courſe ſome critical Lectures upon the chief Preparations contained in the Diſpenſatories of the Royal Colleges of Phyſicians at London and Edinburgh. The whole will be illuſtrated with many uſeful Practical Obſervations on Diſeaſes, Diet and Medicines.

No Perſon will be admitted, without a Ticket for the whole Courſe. Thoſe who propoſe to attend this Courſe, are deſired to apply to the Doctor for Tickets, at leaſt a Week before the Lectures begin. A Dollar will be required of each Student, to matriculate, which will be applied in purchaſing Books for a Medical Library in the College, for the Benefit of the Medical Students.

We are now under orders to attack another chief, or polygor, contiguous to this country; both chiefs have mutually maintained an independency of the Nabob till now, merely on account of the impenetrable woods they are poſſeſſed of. You certainly have heard before of the memorable battle Major Monro gained at Bengal over Suja Dowla, one of the moſt formidable Powers of India: The conſequence of this battle gives the Company the command of trade in the greateſt part of the Mogul's dominions; and, without exaggerating, the East-India Company at preſent may be brought in compariſon with Alexander the Great, whoſe command, from the river Indus to the river Ganges, was not ſo much reſpected as their's."

It is whiſpered, that a certain celebrated Commoner has publicly declared, that unleſs our new Miniſters immediately inſiſt upon the payment of the Canada Bills, and the performance of the other articles, which ſtill remain unexecuted of the late peace, he ſhall think them every whit as improper for their employments as their predeceſſors, and be extremely ſorry that they have any concern in managing the affairs of the kingdom.

It is reported that Cape-Breton, and ſome other important places on the ſea coaſts of North-America, are ſpeedily to be put in a proper ſtate of defence.

By the laſt letters from Senegal, there is certain advice, that the French had made a ſettlement, with 300 men, at Arguin, where it has been long talked of our ſending troops to take poſſeſſion thereof, the Parliament having made proviſion for that purpoſe: It is further added, that if the French are ſuffered to keep poſſeſſion of this place, the gum trade at Senegal will not be of any conſequence.

They write from Madrid, that advice has been received of the iſland Juan Fernandes, and every port of conſequence belonging to his Catholic Majeſty in the South-ſeas, having been fortified, and put in a proper ſtate of defence.

We are informed the new ſtamp duty in North-America, will occaſion a farther delay in calling in their provincial paper currency, which, by a freſh clauſe in the act next ſeſſions, it is ſaid, will be regulated upon a new plan.

They write from Madrid, that orders are gone from Court for the immediate building five more ſhips of the line of battle; three of which are to be laid on the ſtocks at Ferrol, and two at Carthagena.

Auguſt 20. By a veſſel arrived at Guernſey from Belleiſle there is advice, that the French are erecting ſeveral batteries at Sandy Bay, on the ſouth eaſt of the iſland, and in the great road where the deſcent was made in the late war, by the ſeamen and troops under Admiral Keppel and General Hodgſon.

Private letters from Madrid mention, that it was thought the Spaniſh iſland of Porto Rico, in the Weſt-Indies, or part of it, would ſoon be propoſed to the Earl of Rochfort, as an equivalent for the Manilla ranſom.

Auguſt 21. We hear Lord Viſcount Spencer will ſhortly be created an Earl.

All thoughts of any further changes are ſaid to be entirely laid aſide.

Aug. 22. Yeſterday Morning, about Four o'Clock, her Majeſty was ſafely delivered of a Prince, at her Majeſty's Palace; ſoon after which Expreſſes were diſpatched from the Poſt-Office with the News of this happy Event; at Noon the Guns at the Tower were fired, and at Night there were Illuminations and other Demonſtrations of Joy.

At Noon there was a grand Levee at St. James's, at which all the foreign Miniſters and Nobility who were in Town were preſent, to pay their Compliments to his Majeſty on the above Occaſion.

Expreſſes were diſpatched Yeſterday to the Duke of York, and the Courts of Mecklenburgh Strelitz, and Brunſwick, to notify her Majeſty's ſafe Delivery, and the Birth of a young Prince.

It is ſaid, that the young Prince, of which her Majeſty was Yeſterday ſafely delivered, will be baptiſed by the Names of Edward Frederick; and, that his Royal Highneſs the Duke of York, and their Serene Highneſſes the Hereditary Prince and Princeſs of Brunſwick, are to be Sponſors.

The Right Hon. the Lord Mayor has ordered a Court of Common Council to be ſummoned for Tueſday next, at Ten o'Clock, in order to addreſs his Majeſty on the above happy Occaſion.

It is remarkable that the three young Princes were all born in Auguſt; the Prince of Wales was born Auguſt 12, 1762; the Biſhop of Oſnabrug, Auguſt 16, 1763; and the laſt new-born Prince, Yeſterday, Auguſt 21.

His Royal Highneſs the Duke of York, we are aſſured, will hoiſt the Union Flag as Commander in Chief of the Yachts, upon their return to England.

The Prince of Orange is expected to arrive with the Yachts, and a Marriage with one of our Princeſſes (which will be the laſt of that Noble Family unmarried) is ſaid to be as good as concluded upon.

On Monday laſt an Expreſs arrived here from Inſpruck, in Tyrol, with a Letter from the Emperor, acquainting his Majeſty and the Royal Family, that the Marriage between his Royal Highneſs Archduke Peter Leopold of Auſtria, and her Royal Highneſs the Princeſs Mary Louiſa of Spain, was accompliſhed the 5th Inſtant, at the Palace above mentioned.

It was this Morning rumoured, that Hoſtages would ſpeedily be inſiſted upon from a certain Court, by Way of Security towards their future Adherence to the ſtrict Letter of the Treaty, in no leſs than two different Quarters of the Globe.

We are credibly informed the laſt Propoſals from the Court of Verſailles, relative to the Payment of the Canada Bills, were very ſhort of all reaſonable Expectations.

Letters from Gibraltar poſitively aſſert, that the French are building ſeveral ſmall Ships of War at Corſica; which, when finiſhed, are to be ſent loaded with Ship Timber for the Dock Yards at Toulon, and the principal French Ports bordering on the Mediterranean.

Private Letters from Holland adviſe, that the Dutch Weſt-India Company are buying up vaſt Quantities of Naval and Ordnance Stores, which are to be ſhipped for their Settlements of Coracoa, St. Euſtatia, and Surrinam, in the Weſt-Indies; which have always been great Storehouſes for the French in Time of War.

Auguſt 24. Yeſterday Morning his Royal Highneſs the Duke of Cumberland had an Hour's Conference with his Majeſty at the Queen's Palace, and afterwards ſet out for Windſor Lodge.

To-morrow a new Form of Thankſgiving will, by Order of the King and Council, be read in all Churches and Chapels throughout the Weekly Bills, for the ſafe Delivery of her Majeſty.

Letters Patent are ſaid to be making out to create the Hon. Mr. Grenville a Peer of Great-Britain.

Several armed Cutters have this Week been appointed to ſtation on the Coaſt of Newfoundland.

An Article in the laſt Hague Gazette ſays, that, "Our Court has not judged it proper to publiſh what has paſſed lately in the Latitude of the Iſle of Newfoundland, between its Veſſels and thoſe of the French, from whence ſome Perſons infer that this Rencounter has been more ſerious and weighty than was at firſt thought."

We hear that ſeveral Petitions have been preſented to his Majeſty from the French, as well as Britiſh Inhabitants of Canada; and alſo Petitions and Memorials, ſigned by a conſiderable Number of the principal Merchants of the City of London, all of which loudly complain of the arbitrary and oppreſſive Proceedings of a certain American Governor, and to which it is expected that ſome Attention will now be paid.

We are informed ſome very beneficial Alterations in the Mode of collecting his Majeſty's Stamp Duties in America, are now under the Conſideration of the Board of Treaſury, which will tend in a great Meaſure to reconcile this new Impoſt to our Fellow Subjects in the Colonies.

The late Mrs. Wolfe, the Mother of the brave General of that Name, has very humanely left the Reſidue of her Eſtate and Effects, after her Debts and Legacies are paid, to be diſpoſed of amongſt the Widows and Families of the Officers who were employed in the Military Land Service under her Son, General Wolfe.

Auguſt 27. An Eſtimate of the foreign Export Trade of our Siſter Nation, during the laſt ſeven Years, excluſive of that to his Majeſty's American Iſlands and Settlements, is, we are told, ordered to be made out againſt the Meeting of Parliament.

It is ſaid an Order will ſoon be diſpatched to ſuſpend the Execution of Vice-Admiralty Courts in his Majeſty's North American Provinces, till the Subject of certain Appeals from thence ſhall be diſcuſſed in the enſuing grand Aſſembly of the Nation.

A Weſt-India Governor, we are informed, has requeſted to be recalled.

We hear that a Removal of ſome Gentlemen of Diſtinction from a certain great Board will ſhortly be made.

We hear that his Grace the Duke of Richmond will not ſet out on his Embaſſy to France till ſuch Time as our Court has received a categorical Anſwer to a Memorial, which, it is ſaid, has lately been diſpatched there on the Subject of the Newfoundland Fiſhery.

The two popular Points to be ſettled by the preſent Adminiſtration, at the Meeting of the Houſe, are, the Illegality of General Warrants, and a total Alteration in the Mode of collecting the Cyder-Tax.

St. James's Auguſt 27. By the laſt Letters from Colonel Desmaretz, his Majeſty's Commiſſary at Dunkirk, we are aſſured, that Orders were given by the French Miniſtry, for immediately ſetting about the Demolition of the Jettees, which are the Support of the Harbour of Dunkirk.

NEW-HAVEN, October 11.

It is reported here, that a Number of People lately got together at the Iſland of New-Providence, applied to the Stamp-Diſtributor, and earneſtly deſired he would declined acting in that Office. Upon his flatly refuſing to do ſo, they told him, if he did not comply with their Demand, they would bury him alive; but he perſiſted in Denial. They then prepared a Coffin, forced him into it, faſtened on the Cover, and lowered the living Lump to the Bottom of a Grave dug for that Purpoſe, and ſlowly threw after it about two Buſhels of Dirt----The brave Priſoner then conſented to reſign his odious Employment, and the People immediately drew him up, heard him re-deliver his Reſignation in a more articulate Manner, gave him his LIBERTY, and heartily congratulated him on his Reſtoration to the freſh Air---Thus ends this remarkable Report.

BOSTON, October 17.

At a legal Meeting of the Freeholders and other Inhabitants of the Town of CAMBRIDGE, this 14th of October, 1765, the Hon. WILLIAM BRATTLE, Eſq; choſen Moderator,

VOTED, THAT (with all Humility) it is the Opinion of the Town, that the Inhabitants of this Province have a legal Claim to all the natural, inherent, conſtitutional Rights of Engliſhmen, notwithſtanding their great Diſtance from Great Britain-----That the Stamp-Act is an Infraction upon theſe Rights----one Inſtance in our Opinion, among many, is as follows:----

The Diſtributor of the Stamps, or Mr. INFORMER, have a Sovereignty over every Thing but the Lives of the People, ſince it is in their Power to ſummon every one they pleaſe to Quebec, Montreal or Newfoundland, to anſwer for the pretended or real Breaches of this Act. When the diſtreſſed Subject arrives there, by whom is he to be tried?---Not by his Peers in the Vicinage, (the Birthright of every Engliſhman) no! by the Judge of Admiralty, without a Jury; and, it is poſſible, without Law!---Under theſe Circumſtances, the Stamp-Diſtributor or INFORMER, may unrighteouſly get from His Majeſty's good American Subjects, more than His Majeſty, upon a Ballance, may get by the Stamps: For who would not rather pay the Fine, guilty or not, than be thus harraſſed, thus tried?----Why are not His Majeſty's good Subjects of Great Britain thus treated? Why muſt we in America, who have in every Inſtance diſcovered as much Loyalty to His Majeſty, and Obedience to his Laws, as any of His Britiſh Subjects; and whoſe Exertions, in ſome of the Provinces and Colonies, during the laſt War, have been greater, muſt be thus diſcriminated?----at this Time eſpecially, whilſt we are ſtruggling under an almoſt inſupportable Load of Debt, the Conſequence of theſe Exertions. We believe it may be truly ſaid, that no one in Great Britain pays ſo great a Tax as ſome do in this Province, in Proportion to their Eſtates.

Let this Act but take Place, Liberty will be no more---Trade will languiſh and die----our Caſh will be ſent into his Majeſty's Exchequer----and Poverty come upon us like an armed Man.

The Town therefore hereby adviſe and direct their Repreſentatives, by no Means whatſoever to do any one Thing that may aid ſaid Act in its Operation; but that, in Conjunction with the Friends of Liberty, they uſe their utmoſt Endeavous that the ſame might be repealed----That this Vote be recorded in the Town Book, that the Children yet unborn may ſee the Deſire their Anceſtors had for their Freedom and Happineſs; and that an atteſted Copy be given ſaid Repreſentatives for their Conduct.

Weſtmoreland, September 24, 1765.

To the Honourable the Governor and Council of VIRGINIA.

THE very great Impropriety of Acting in an Office which at once requires the Diſcharge of Duties, utterly inconſiſtent with each other, makes it indiſpenſibly neceſſary to give your Honours this timely Information that, after the Firſt Day of November next, We the under written Magiſtrates of Weſtmoreland, find Ourſelves compelled, by the ſtrongeſt Motives of Honour and Virtue, to decline Acting in that Capacity; becauſe, from that Period, the Act for eſtabliſhing Stamps in America commences; which Act will impoſe on us a Neceſſity, in Conſequence of the Judicial Oath we take, of Acting in Conformity to its Directions, and, by doing ſo, to become Inſtrumental in the Deſtruction of Our Country's moſt eſſential Rights and Liberties. [Signed by the JUSTICES.]

NEW-YORK, October 24.

Yeſterday was opened the Market under the Exchange, for Home Manufactures. The Deſign was not ſufficiently known in the Country, and, from the Shortneſs of the Notice, there was neither the Plenty nor Variety expected; though ſuch a Number of Buyers appeared, of all Ranks, that it is not doubted but they would have bought for large Sums. There was Plenty of Womens Shoes of different Makers, which had a quick Sale, and Hoſe's Make were totally diſcredited by all the Judicious. Brown bleached Linen and Diaper, Cambrick, Thread Stockings, and Caps, and Woollen Yarn Stockings, were quickly ſold---And great Demand was made for more of theſe Articles, and alſo for Woollen Cloths and Stuffs of all Sorts, New-England Checks, Gloves and Mittens.---And it is hoped, that next Market Day, being Wedneſday, the 6th of November, the Country Makers will ſupply the great Demand.

A Sloop from Coracoa, David Young, Maſter, is aſhore at Deal, about ten Miles from Shrewſbury.

On Tueſday Evening arrived the Ship Edward, Captain William Davis, in nine Weeks from London, and ſix Weeks and three Days from Falmouth.---Sir HARRY MOORE, Governor of this Province, was on board the Minerva, Captain Tillet, lying at Portſmouth, and expected to ſail from thence about the Time Captain Davis ſailed from Falmouth, and therefore may be daily expected here.---The Duke of Cumberland Packet-Boat was arrived from this Port, in three Weeks Paſſage. The Captains Haviland, Berton, and Jacobſon, were to ſail from London, for this Port, in about a Week after Captain Davis, and the Earl of Halifax Packet, Captain Boulderſon, in about ten Days.---The new Miniſtry were in general much approved by the Public, whoſe Attention had been ſo much taken up with the Buſtle occaſioned by the late extraordinary Change, that our moſt juſt and heavy Complaints of Oppreſſion, had as yet ſcarcely attracted the public Notice;---indeed they had not then heard that our Diſtreſſes were ſo grievous, and our Complaints ſo extenſive and unanimous.---However it was the general Talk in London, that we ſhould be eaſed in the Stamp Duties. [Nothing but giving up the Pretence to the Right of taxing us, can eaſe us.]---And ſome ſay it was a Wager commonly offered in the Coffee-Houſe, of One Hundred Guineas to Ten, that the Stamp Act would be repealed as ſoon as the Parliament met, which was to be about the Middle of November.---The Emperor of Germany was dead.---Captain Davis, who brought us, laſt Voyage, the News that the Stamp Act was paſſed, has now brought the Stamps themſelves, intended to enſlave us.---They were ſhipped ſo privately, that not a Paſſenger in the Ship knew of their being on board, till a Man of War here came on board to take Care of their Security.

As ſoon as it was known that the Stamps were really arrived, all the Veſſels in the Harbour lowered their Colours, to ſignify MOURNING, LAMENTATION, AND WOE. Alas! What have we done to merit ſuch Treatment from our Mother Country, and our Brethren? Have we deſerved to be thus degraded and diſhonoured, and uſed by them, as the moſt inveterate Enemies? What ſtrange Infatuation has prevailed in their Councils! To diſtreſs, ruin and enſlave us, when our Rights and Privileges are preciſely the ſame, and our Intereſts inſeparably united!

It is reported, that the Governor ſent to Mr, M'EVERS, deſiring him to take Care of the Stamps, and that he anſwered, he had nothing to do with them. At preſent, as we are informed, there is not one of the Perſons appointed, from New-Hampſhire to Georgia, that will execute the odious Office;---ſo that the Stamps are now a Commodity no Body knows what to do with, and are more abominable, and dangerous to be meddled with, than if they were infected with the Peſtilence.---It is more dangerous to buy or ſell, or meddle with a Stamp, than it is to en-

counter all the Dangers and Penalties attending the Want of them. AMEN.

PHILADELPHIA, October 31.

We are ſorry to be obliged to acquaint our Readers, that as the moſt UNCONSTITUTIONAL ACT that ever theſe Colonies could have imagined, to wit, The STAMP ACT, is feared to be obligatory upon us, after the Firſt of November enſuing (the FATAL TO-MORROW) the Publiſhers of this Paper, unable to bear the Burthen, have thought it expedient to ſtop a While, in order to deliberate, whether any Methods can be found to elude the Chains forged for them, and eſcape the inſupportable Slavery; which, it is hoped, from the juſt Repreſentations now made againſt that Act, may be effected.----Mean while, we muſt earneſtly requeſt every Individual of our Subſcribers, many of whom have been long behind hand, that they would immediately diſcharge their reſpective Arrears, that we may be able not only to ſupport ourſelves during the Interval, but be better prepared to proceed again with this Paper, whenever an Opening appears for that Purpoſe, which we hope will be ſoon.

In ſeveral Letters from London by Captain Budden, wrote by judicious, cool, thinking Men, where they expreſs themſelves with Regard to the Stamp Act, they ſay, "They think it the "moſt injudicious Tax, in all Reſpects, that ever was laid by "any Miniſtry; and that they really believe the preſent Sett of "Men will repeal that Law the firſt Thing they do next Seſſion "of Parliament."

Captain Budden, on the ſeventh of October, in Latitude 37: 58, ſpoke with a Ship from Cape Fear for Hull, out three Weeks---8th, in Lat. 37: 34, with a Snow from Liverpool for Virginia, out ſix Weeks---10th, in Lat. 38: 25, with a Ship from Virginia for Briſtol, out ſix Days---and on the 14th, in Lat. 38: 24, he ſpoke with Capt. Ranton, in a Brig from this Place for Briſtol, out three Days; all well in all the Veſſels.

Captain Hunter, for Boſton; and a Brig for South-Carolina, ſailed with Captain Budden from Falmouth.

With Captain Budden's Ship came up the Sardine Man of War, Captain Hawker, in order to take Charge of a ſecond Quantity of STAMPED Paper, imported in her from London; he being the only Perſon here, at preſent, that chooſes to have any thing to do with that Commodity.

On Friday laſt the GENERAL CONGRESS finiſhed their Buſineſs at New-York----An humble Addreſs, we hear, is prepared for His Majeſty, and a Memorial for each Houſe of Parliament, relating to the Grievances of the Colonies, which are to be forwarded by the firſt Opportunities from Boſton, New-York, and this Place.

James Pemberton is elected a Burgeſs for this City for the enſuing Year.

We hear from Halifax, that the Gentleman appointed Diſtributor of Stamps there, has reſigned that Office, on finding how diſagreeable the Holding of it was to the People.

Tueſday laſt Captain Taylor arrived here from Boſton, off our Coaſt he ſpoke a Sloop from Jamaica for New-York.

Captain Johnſton, from New-Caſtle, on the 5th Inſtant, in Lat. 39: 16, Long. 60: 40, ſpoke a Ship from London for New-York; ſhe had then been out ſix Weeks, and had ſeveral Paſſengers on board, all well.---And on the 17th in Lat. 37: 23, Long. 71, ſpoke a Snow from Virginia for Briſtol.

Captain Eaſtwick, from St. Chriſtophers, on the 9th Inſtant, in Lat. 27, Long. 70, ſpoke with Captain Moodie, in a Snow from Liverpool for Maryland, out eight Weeks, all well.---Captain Eaſtwick left Baſſeterre the 2d Inſtant; two Days before he ſailed, a Sloop arrived there in 25 Days from Virginia.

Captain Taylor, from Belfaſt, on the 4th Inſt. in Lat. 42, Long. 57, ſpoke a Snow from Montſerrat for Glaſgow, out five Weeks, all well.

Arrived. Captains Brown and Waſdale, at Halifax; and Captain Robinſon, at St. Chriſtophers; from this Port.

From New-York. Schooner Suſannah and Elizabeth, at St. Chriſtophers; and a Brig at Halifax.

From Virginia. Captains Glen and Grymes, at St. Chriſtophers.

From Piſcataqua. Captain Simpſon, at Ditto.

From Boſton there is Advice, that more ſtamped Paper is arrived there, but that Mr. Oliver declares he will not diſtribute it; and the Governor has ſolemnly declared, he has no Power to diſtribute it himſelf, nor to order or appoint any other Perſon ſo to do, or even to unpack the Bales------From New-York we learn, that moſt of the Gentlemen there, have reſolved not to buy any European Manufactures, till their Trade is more opened, the Stamp Act repealed, and the Sugar Act altered.------And from Detroit, That Pondiac, and the other Indian Chiefs, having made Peace with us, went away ſeemingly contented; but that two Days after the Councils were over, one of the Chiefs frankly declared, that they had talked friendly to the Engliſh only from their Teeth out, but hated them in their Hearts.------A Veſſel is arrived from Briſtol at New-York, which brings Advices to the Fourth of September, but contain nothing remarkable; only that an unſatisfactory Anſwer had been received from Verſailles, relating to ſome late Repreſentations from our Court; and that an Anſwer was daily expected from Madrid, regarding certain important Queſtions lately put to that Court by ours; according to which, it is ſaid, ſome very ſpirited Meaſures, now on the Carpet, will be regulated.

The Inhabitants of this City are requeſted to be very careful in keeping their Doors ſhut after Night, as at preſent there is in, and about, this Place, one of the moſt dangerous Gangs that has been known, who make a Practice of going about in the Duſk of the Evening, and, entering where they can, carry off what they firſt meet with.

*** Thoſe of our Brethren who may continue their Papers, are requeſted to ſend us them as uſual; which Favour ſhall be gratefully acknowledged, and returned, as ſoon as we begin again.

As the Neceſſity of cultivating Medical Knowledge in America is allowed by all, it is with Pleaſure we inform the Public, that Courſes of Lectures, on two of the moſt important Branches of that uſeful Science, viz. ANATOMY, and MATERIA MEDICA, will be delivered this Winter in Philadelphia. We have great Reaſon therefore to hope, that Gentlemen of the Faculty will encourage the Deſign, by recommending it to their Pupils; that Pupils themſelves will be glad of ſuch an Opportunity of Improvement; and that the Public will think it an Object worthy their Attention and Patronage.---In order to render theſe Courſes the more extenſively uſeful, we intend to introduce into them, as much of the Theory and Practice of Phyſic, of Pharmacy, Chemiſtry and Surgery, as can conveniently be admitted. From all this, together with an Attendance on the Practice of the Phyſicians and Surgeons of the Pennſylvania Hoſpital, the Students will be able to proſecute their Studies with ſuch Advantage, as will qualify them to practiſe hereafter with more Satisfaction to themſelves, and Benefit to the Community. The particular Advertiſements inſerted below, ſpecify the Time when theſe Lectures are to commence, and contain the various Subjects to be treated of in each Courſe, and the Terms on which Pupils are to be admitted.

WILLIAM SHIPPEN, jun. M. D.
Profeſſor of Anatomy and Surgery in the College of Philadelphia.
JOHN MORGAN, M. D. F. R. S.
And Profeſſor of Medicine in the College of Philadelphia.

DOCTOR SHIPPEN's Courſe of ANATOMICAL LECTURES will begin on Thurſday, the 14th of November, 1765; it will conſiſt of about 60 Lectures, in which the Situation, Figure and Structure of all the Parts of the human Body, will be demonſtrated on the freſh Subject; their reſpective Uſes explained, and their Diſeaſes, with the Indications, and Method of Cure, briefly treated of; all the neceſſary Operations in Surgery will be performed, a Courſe of Bandages given; and the whole conclude with a few plain and general Directions in the Practice of Midwifery. Each Perſon to pay Six Piſtoles.

Thoſe who incline to attend the Pennſylvania Hoſpital, and have the Benefit of the curious Anatomical Plates and Caſts there, to pay Six Piſtoles to that uſeful Charity.

*** It has given Dr. Shippen much Pain to hear, that notwithſtanding all the Caution and Care he has taken, to preſerve the utmoſt Decency in opening and diſſecting dead Bodies, which he has perſevered in, chiefly from the Motive of being uſeful to Mankind, ſome evil-minded Perſons, either wantonly or maliciouſly, have reported to his Diſadvantage, that he has taken up ſome Perſons who were buried in the Church Burying Ground, which has diſtreſſed the Minds of ſome of his worthy Fellow Citizens.---The Doctor, with much Pleaſure, improves this Opportunity to declare, that the Report is abſolutely falſe; and to aſſure them, that the Bodies he diſſected, were either of Perſons who had wilfully murdered themſelves, or were publickly executed, except now and then one from the Potters Field, whoſe Death was owing to ſome particular Diſeaſe; and that he never had one Body from the Church, or any other private Burial Place.

A COURSE of LECTURES, on the MATERIA MEDICA. By JOHN MORGAN, M. D. F. R. S. and Profeſſor of Medicine in the College of Philadelphia. Price Four Piſtoles.

THIS Courſe will commence on Monday, the 18th Day of November, and be given three times a Week, at the College, viz. Mondays, Wedneſdays and Fridays, at Three o'Clock in the Afternoon, till finiſhed, which will laſt between three and four Months.

To render theſe Lectures as inſtructive as poſſible to Students of Phyſic, the Doctor propoſes, in the Courſe of them, to give ſome uſeful Obſervations on Medicine in general, and the proper Manner of conducting the Study of Phyſic. The Authors to be read, in the Materia Medica, will be pointed out. The various Subſtances made uſe of in Medicine, will be reduced under Claſſes ſuited to the principal Indications in the Cure of Diſeaſes. Similar Virtues in different Plants, and their comparative Powers, will be treated of, and an Enquiry made into the different Methods which have been uſed in diſcovering the Qualities of Medicines; the Virtues of the moſt efficacious will be particularly inſiſted upon; the Manner of preparing and combining them will be ſhewn by ſome inſtructive Leſſons upon pharmaceutic Chemiſtry; This will open to Students a general Idea both of Chemiſtry and Pharmacy. To prepare them more effectually for underſtanding the Art of preſcribing with Elegance and Propriety, if Time allows, it is propoſed to include in this Courſe, ſome critical Lectures upon the chief Preparations contained in the Diſpenſatories of the Royal Colleges of Phyſicians at London and Edinburgh. The whole will be illuſtrated with many uſeful Practical Obſervations on Diſeaſes, Diet and Medicines.

No Perſon will be admitted, without a Ticket for the whole Courſe. Thoſe who propoſe to attend this Courſe, are deſired to apply to the Doctor for Tickets, at leaſt a Week before the Lectures begin. A Dollar will be required of each Student, to matriculate, which will be applied in purchaſing Books for a Medical Library in the College, for the Benefit of the Medical Students.
